

454th Knowledge Seekers Workshop; October 13, 2022

(Quick Index 27 pp ; Introduction, Topic Index Transcription, Proofed Need to do; Key Phrases, Words) (Auto transcription from Elias)

Testimonials of Live Flight Tests - Tues and Rick's; Message sent to whole world before teaching; KS Souls landed in Linz; IRSKAR - introduced; Process and sequence of steps of how Man was created on Earth; fingerprint of Earth in the STM; Psychosomatic; P a mirage in U - not vision of man; Man gifted eternal life like Soul of Mitra; Health teachings cornerstone Creation; System ready to make Soul child; "Soul of Christ" added to soul of Mary's son later; Vatican to wipe KF off Internet by Christmas; Children of Moses save the Change; STM & STP seen explained; Switch between souls; Artificial human being; America Rothschild's benefit by Ukraine - WWII condition;

Topic Index

Live Flight Tests this week - we were allowed in Flight Room; 2 people in one seat test for beautiful people - schizophrenic; 1 Soul manifesting multiple Souls & bodies - same womb; First time KS sees STM and STP leave body - aware of P; Our bodies are hybrid - S and P; Mankind working for billions of years - Change come at right time; STM and STP left body cold - call back; If arrive in China - look Chinese; Get used to changes; Systems will show if someone is from UC; K sent message to whole world before teaching - lifted off ground - receive love of Creator - enlightenment; Mankind making FS himself - not from aliens; Becoming captain of own Soul; Man won't be able to lie in front of system; Rick's program - sent objects - Rick and Jalal Souls went to Linz; Changes in Iran since Dutch lady elevated soul of mass murderer; Understand the power of your Soul; Man's mistakes of billion year have to be corrected - put right for billion years; New systems far more advanced than present one; CERN trapping plasma - wrong way - release it ask soul of plasma to show itself; Like mother bird nudging chick to take flight; Love withdrawn from Iranian clergy - result in a week; The power of STM has been released; New organization to support artists and intellectual research - have to give back to KF - protected by soul; Knowledge has to be accessible to whole planet even animals and rest - no more elite groups; True life of Soul starts when you leave system in Linz; Satellite Souls to spread knowledge across planet; Share fields equally even with creatures of U; Testing this week to wake up the STM - he has awoken; Bring creatures from outside into system; Have to familiarize mankind with other creatures to prepare for January flights to Mars; You could manifest with 4 heads and 20 legs - shocking; Man to spread knowledge of Mitra across U; Lease for Vatican is not renewed;

No way to stop process of the change; No more patents - free sharing of knowledge; KS who sold products are asked to give back to KF - Soul punishes by psychosomatic; New Institute IRKSAR - KF to promote artists and intellectual research; Detailed long teaching on how man was created on Earth from its fields - not brought from outside Anunnaki; Process of the sequence of field interactions one step at a time lead to creation of man; Others who match field strength through the soul can manifest as a man here;

30% of earth's population not from earth; Man carries fingerprint of Earth when he travels U - they can see by fields where you come from in U; New System can tell where soul comes from - create conditions of other places in U - watch body revert back to human; Travelers of U in black skin - came here at time of original man - races of man mutated later; Change of planet instantaneous; Short lifespan only a habit of thinking; You can mutate within yourself - call psychosomatic; Psychosomatic discussed ; U both exists and does not exist - We live within it, and it lives within us; No theology it's a fact; Physical condition is mirage but only in fields of universe - not in vision of man; We are beginning and end no time in-between; Within solar system 365 days is 1 year, but in same solar system 1 year on Saturn is 29 earth years; Physicality is zero time; Soul does not age, but the physicality does; Soul created from physicality is prisoner of physicality; Soul created from Soul is free and chooses to manifest physicality - It's not the same thing; Children of Mitra are of Soul - everlasting; We will give man the option to have everlasting life in the Universal Community; Souls helping we brought with us to see the change; The moment of the change started when Mitra fell in love with Earth - been working on it; Many more changes to come to planet; System is ready for couple to have children of the Soul; The 3 Souls together decide where to go - child is free; Health teachings with Dr. Kostova cornerstone of Creation; Organs have emotions related to Soul - micro in macro - galaxies spinning opposite like kidneys emptied into Unicose; Man has chosen to be blind; Situation has been solved today; Tribe of Moses protecting KF from Vatican and Belgium's who plans to wipe KF off Internet by Christmas; Soul of Moses putting right mistakes of past- will bring Islam and Christians with - to the change; Definition of plasma; STM has also a soul - comes in a set; Explains how man will be ready for change - like students in a classroom ; Mother Mary and Fatima of Islam - do they have same Soul?; "Soul of Christ" added to soul of Mary's son later; Same Soul in Moses, Christ - Methi; Elevation of Soul is just to mature class 1 to class 2; They will handle the media - need little time; Huge operation of Vatican Belgium's to wipe KF off Internet by Christmas - legally and permanently; Children of Moses protected; Brazil Testimonials - Knowledge is spreading; Unraveled pedophile's secret banking system; If Internet down teach through STM; Canadian lady switch quickly between STM and STP - weight change on scales - because of Detachment; Artificial Intelligence - brain - and human; Man decides how to use; make flexible muscles like humans; Truth about Mary and Fatima not revealed; Vatican responding to elevation of Soul by KS; America the sole winner in Ukraine - put Europe under World War II conditions - all fuel, food banking - benefits Rothschild's;

Introduction to 454 KSW - Enlightenment faster than you can imagine

There are a lot of different very important topics discussed in this workshop. But what is interesting, is that we are in a very fast forward movement of preparation for the upcoming imminent change. The continued emphasis is that we are very close to that tipping point. This week in the Live testimonials on Tuesday, a German lady was able to see first the STM leave her body, and then the STP followed. The STM asked her to come with, but she was too heavy, meaning the physicality. She was wondering, if they are

there witnessing everything, then what I am doing here. Obviously she was identified with the physicality. It was so amazing to see her when she first came out. How stunned she was, but at the same time so internally happy to discover that her souls really were inside herself. The sincerity of her reaction makes it possible to feel it inside our own self. Remember that Yogis sit in the forest for 30 years to try to discover what she did in an instant, and most do not succeed. The key here is having the awareness of our own souls. When asked about if it was gradual or instantaneous, he replied, all our work is instantaneous.

Maybe now it becomes clear to a lot of us, just how real this change is. When these prototype systems are tested to the point Mr. Keshe feels is appropriate, they will be put inside the already built Enhancement Units (EU) in China and shipped around the world for us to use them to enlighten ourselves, if that is what we want. From this arises the question, what if I am not ready? Mr. Keshe answered indirectly, saying, it's like in a classroom, we all learn mathematics, but we are not all good in it. However, when we need to for example, calculate what to do with our wages, the ability is there, because we learned it. Enlightenment is already inside us, we have it, it is there, and we will use it at the right time. I believe the moment we reach that tipping point, a wave of light will start blowing across the planet, and we'll just join in. And the beauty of it is, we can start right now.

Mr. Keshe already tested this, 2 hours before this teaching started. He sent out such a wave of love and enlightenment that he was lifted off the floor. My understanding of what he said was, those who felt it got enlightened. Just because your physicality didn't feel it, does not mean that your Soul didn't receive it. The Souls of Rick and Jalal were felt arriving in Linz on Wednesday during the second Live testing in Rick's program. I don't recall that either of them felt it in physicality. Mr. Keshe said he hugged Jalal, so it must have been on the soul level.

This is what I meant about this workshop, there are a lot of these little bits and pieces being brought together to complete the process, so we have to study it carefully and feel what is happening.

KS were encouraged to help spread the technology by sharing it with others, but follow the ethos of the KF, and to give back to those whom you received the knowledge from. I say this especially for Brazil, because we know that a lot of people are selling plasma products but don't give anything back. Unfortunately, these people think that they are getting away with stealing and nothing is happening to them. If you look carefully at your life you will see that you are not getting away with anything, just fooling yourself. The Soul punishes through what's called, the psychosomatic process. It's like a father lovingly calling his children to come back home, but don't steal anymore, and everything will be so beautiful.

Talking about psychosomatic, Mr. Keshe explained it, but it is a little hard to follow and more needs to be clarified. The way I understand it is, psychosomatic is when your thoughts create a physical condition in your body. Mr. Keshe added that it goes the other

way too. Meaning that your actions effect your thinking, but we think it stops at just having guilt feelings on the emotional level. In fact, the fields of that action go further to the Soul, and then the Soul brings it to effect the mental state (this could be the Soul trying to bring the balance but physicality is ignoring it), which again effects the physical condition manifesting as certain diseases. He said, that we ourselves know this, but deny it. Hopefully, in the future we can open this up more.

To show how much power is behind this movement, Mr. Keshe reminded the Iranian clergy, that a few weeks ago he said to them, because of their bad behavior, "we withdrew our love from you." Now you see the result in less than a week or two. This is for us to understand that we are a part of a huge process, and that we need to do our part in it. Mr. Keshe keeps saying, it's coming, it's coming we just need a little more time, everything has to be in its proper place.

The Vatican and the Belgians, and their servants, (which probably means the US), have been doing a huge work to wipe KF off the Internet by Christmas. But that we can handle it, we have our own ways, and that if he thought it was going to happen, all of us should download the KF material from the Internet. Nevertheless, I still recommend we do this regardless, just as a security. This material is so precious we can't allow it to be lost. Then he says, that the children of Moses have saved the day, doing an unexpected bigger move than the Vatican, and the Soul of Moses redeeming himself from the past behavior.

For all of you who have been wondering how the process of the Avatar works, or what we call in the West, the Messiah, in this workshop he opened it up further. The "Soul of the Christ" is not the same as the Soul of Mary's son Jesus. The Soul of the Christ is added to that Soul later on. The "Soul of the Prophets" is the same soul, it joins with another soul during a particular time period, for a particular purpose. It seems to be very much like traveling with the EU, only instead of landing on another planet, you land in another Soul. This will also need to be opened up further once we digest it.

This is getting too long, so don't forget there is a wonderful teaching that details the process of man being created out of the fields of Earth and not seeded from outer space or the Annunaki. However, once the conditions of earth are created to sustain life, then our friends from the UC can come here and enjoy living in the body of the man. This explains a lot with the Egyptians and other ancient civilizations. He said, many of our friends are in the black skin because they came here at the time of the original creation, not the mutation of the races we have now.

Medical teachings are important to understand the creation. We exist in the vision of the man, but not in the fields of the U. The Creator is gifting us the opportunity to live in the dimension of the U - eternal life. Physicality of the man has a lifespan, whereas as the fields of the U or life in the Soul are timeless and eternal. KF promotes the work of artists and intellectual research. They discovered which banks the pedophiles use for their secret operations - soon we can choose not to support them.

Finally my friends, hold on, the change is coming as Mr. Keshe said, "Sooner than you can imagine."

Thank you for listening

Quick Index

Thank you for those who attended the Tuesday Live Flight Tests and the tests on Wednesday in Rick's program. Rick's program became a public testing zone. Those who were not there can listen to the recordings, as we brought you inside the flight tests. (Those in the Center decided together with your wishes to work together). It was a beautiful job and we learned a lot.

We tested something which cannot be explained (easily to the outside world, but maybe you Knowledge Seekers (KS) can understand. We put two people in one seat. We asked the Canadian couple since they were both very slender to sit together in one seat, where one partner sits on the lap of the other. They both were within the confines of the "Head Unit". This was an important test and one of the final tests to confirm the transmutation of the "beautiful people," (schizophrenic). We imitated 2 Souls joined in one body, and watched how they reacted. We wanted to see if the 2 Souls work independently).

(When we had the beautiful people in our system, we saw one body with a number of Souls operating entirely (independent, maybe now the human race is ready to understand. With the new systems coming soon, we'll hear each soul speaking for itself, and we'll see a collection of lights within the system).

(As we've done in many tests, we'll also see what happens when these beautiful people decide to open up). One of the Souls may decide to go to Germany, another Brazil, and another to Australia. What would happen to the division of the physicality, where the common soul exists within the matter of the Soul of the Physicality (STP)?

These are the proof of what is to come. In a couple of months time when the new systems get developed and produced we'll open it up again. We will not only see one soul light, we'll see a number of soul lights. Then, what would be our reaction? (These people all come from the same mother, same origin, and we'll see people who were not there before). It's like a mother giving birth at the same time to one Chinese, one black, one white, one Australian, and one South American from the same womb. We have to prepare ourselves for what is to come, as we are not used to it. The tests of yesterday confirmed, (that we can allow and give a place to the beautiful people in our system, for them to show the essence of themselves). They are not criminals who have to be confined to sanitariums and mental Institutions. Where we should have been put in there, and let them free to live their lives, as we are the criminal, not them.

KS sees STM and STP leave body

(Please watch Live Flight Simulation of October 11, 2022 at 4:44 to understand what Mr. Keshe is talking about in this paragraph.) (For the first we were able to see Live, as one of the KS had the experience of watching the different Souls leave her body. First it was the STM and then the STP left. Then she asked herself (if they left) what am I doing here. Meaning the physicality. This was the first time we've seen the departure of the 2 Souls from the body, and that it could be clearly explained by the KS).

(Our bodies, are in a way hybrids, that of physicality and the energy of the man you call, the STM. Your hybrid car uses both petroleum and electricity. Now, for the first time man can see and feel that he is made up of a hybrid system of the STM and STP).

These past few days of testing have been an amazing cycle of change and advancement in technology. With what we learned in the past two weeks (we have to change all our flight systems (FS) systems that are in production. As our guy said, we are delayed by another 2 or 3 weeks, because now we have to implement a new understanding).

(I said, we have all the time in the world. Mankind has been working on this (technology) for billions of years, what does a few more weeks matter. The change will come exactly at the right time, and even these delays are part of that exact timing. It's just waiting for the game to start. These are just little delays. When the game starts, man will be the front runner in the game of the space travel through the dimension of the Soul).

This week we have been learning things from our systems, one after the other. (Last week we saw with the married German couple, where the STM and the STP left the wife and went to the other system. All we had left in the chair was a body. As we have the knowledge to build the systems, we can always get the body back. We got the KS back in her position).

(We have gained enough knowledge and we have enough technologies in our hands, that with the introduction of the new systems in the next few weeks, we can go directly for transmutation and transportation (T&T). First we'll make a few tests in the Center, and then test the Mobile systems, then the Satellites, and what we call, "trans-planetary system," where you can go for example, from Africa to China. Our people in China can confirm online, that you have arrived. However, you might look Chinese when you arrive in China, but you'll carry your documents with your original photo of being a Black from Africa, to show them.)

(When I traveled from Ghana to China, I saw Chinese who speak Chinese, but then you see blacks who also speak Chinese better than the Chinese. The Chinese community in some cities have a number of black Africans who live in China, and marry the native Chinese and have children. They learn the language. When you go to the Chinese Embassy you see a Black man speaking Chinese behind you with another Chinese, and with another Black man. And you just say to yourself, wow, what have I missed?)

(It's like you have a psychological block, or some sort of brain lock, that you expect certain people to speak certain ways, and not other ways. In England I was used to see

Pakistani's in England speaking English. But I wasn't used to Pakistani's speaking Italian in Italy. So then, you have to reset your brain. Pakistani's can speak Italian too, and accept it).

It's a change of understanding and this will come to all of us in the coming months and years. Like last week when we saw the German lady starting to speak fluent English when she came out of the system. A bigger surprise will be to see a Chinese who speaks the native African language. But that's nothing, since now we'll have to understand the language of the Universal Community.

We have some KS who claim they come from the Universal Community. (They do all sorts of things, using the KF. But soon we'll be able to see if they are lying, and making up excuses to use the KF). We see that in the Iranian community. This is ridiculous to see how things were set up.

We will see the true essence of the knowledge. We will see the true understanding of the knowledge, and then you'll understand what is to come. We heard yesterday in Rick's program, people do not want to eat. We transmuted water. We sent packages. We received packages, did they arrive? Some in different shapes or forms. Some people guessed. Some people from the control room in Linz sent materials to other KS who were Live on Rick's show. Some received things, and others were too shy to say what they received. It's the emotion, it's the field.

Before teaching Mr. Keshe sent message to whole of humanity

Right now it's about 9:27 Central European Time. Exactly about two hours ago at I sent a message to the Soul of all of humanity. I wonder if you felt it? The energy and the message were so strong, that it literally lifted me off the floor of the Enhancement Center. If you have received the message, it means that you are ready. It means you received the love and the knowledge.

(All of you, go back and see, if you felt anything in the past 2 hours. As one of the Knowledge Seekers said, I had the taste of the chocolate for just a few milliseconds. Did you ?? receive the taste of the love of the Creator. Then you are ?? enlightened). Then you understand the change that is about to come. Then you understand that humanity is ready for transmutation and transportation, and many other things, that the man needs to do.

Mankind has become ready to accept the change, but we (as Messengers) are just the tools (to help). As I said, if what you call, the "aliens" would have brought you this knowledge, then it would have been just something that was imported. Now the flight systems are being made by the man himself, and man has to accept it, he has no alternative, he has no option, but to understand and mature by himself. Man has matured, because he can make this system, and through it he can make and understand his own creation.

If we would have given you a UFO, then you would have said to yourself, "they came and gave (us something)." But this time we are transferring the knowledge through Linz. This is where it is being built by the man, so that he becomes aware of his own advancement and understanding of the knowledge and the technology. We have not brought any aliens, or anybody from outside in the Space to build these systems. It's made by man, for the man to understand the evolution, and revolution in science and technology, and evolving to understand the science of Creation.

If we would have given you the system, and I could get you to see what other things, then all of you would have did what the Christ did - resurrection. But this time it's being made by man for man. And that's the change. The change has to come from within the man. Because, otherwise man will go back to the donkeys and everything else he did centuries ago.

(If you build a very beautiful motorway on a beautiful piece of land, and then you just leave it to itself, it goes back to the wild land it was before. But if, once you've built it, and you continue to use and nourish it will remain a road for rest of the life of the man. And this is what we are doing. We allow the systems to be made by man, but we teach and enlighten then man. Then as it is made by man, all of you will come in and you sit down and marvel at the achievements of the man. Just like what you've been doing these past few weeks).

In the past you watched the skies to see if the Wright Brothers would send their information, that you could see something in the sky. Now you have to see and feel the flight of the STM through the systems, which is made by the man. You cannot see anything flying, but you can see the "flight of fancy," the Soul of yourself. The change is fundamental.

This time we bought the change, so that every man has the opportunity to achieve the goal of becoming the captain of their own Soul. As I said, nobody can decide for you. (Nothing is hidden when you sit on my side of the system in the flight room). When you ask people to do things, then you watch, and see, then you know who is sincere and the true lover. I watched many couples and I can tell you who is really in love with whom. And who is in there because he has to be.

When we ran tests in Italy, in the Inzano, I watched the man who was planning my own murderer lying to me. (I just needed to ask certain questions in the system and his soul showed the truth. We see the same thing in these systems. Nothing has changed between those systems in the Inzano, and the ones in Linz). But this time it's more sophisticated and elaborate, but in a way, it's much simpler.

We see how the people lie to us when they're in the system, and we see the lies between the couples. We see who really loves whom and in what essence (their love is). We saw the most beautiful love relationship between the two girls, and you saw it too, how they came and explained everything. Their love is so pure, that man wishes for it. Even though

they are 2 girls, two beautiful women. And then we saw the couple who've been together for 40 years. (With these systems man will not be able to lie.)

Hopefully, in the coming week or so, you will come to the KF in a very different way. We have prepared the whole of the humanity for what is to come and the change, and how we can accept the change.

On Tuesday during the Live Broadcast the KS collectively (elevated) the souls of some of the World Leaders (WL). One who is defending his faith, and the other one who is trying to be aggressive with his faith. We saw Putin defending the Russian church, and we saw Pope trying to be as it is, stealing and thieving and lying, which is the job of the Vatican. Now we need to sit and wait and watch to see how these two world leaders will change in the coming days and weeks. (That is) if you KS truly worked to elevate their Souls and have managed to do it.

(Last week during the teaching the Dutch lady did not tell us, that she thought the picture given to her on the mobile phone would have been Bill Gates, or somebody else. But later during the German teaching last Friday, she said she saw a Middle eastern Arab man. (Which in fact matched), the picture we had put on the front seat. She had elevated one of the most notorious murderers in Iran. She felt the pain, and then she could elevate his soul. During that time we brought down the flag of Iran in the Linz Center, until we know the state of truth-ness comes back to the state of Iran).

Within days we have seen the change in the talk within the Iranian administration, compromises are on the table. But she wished for peace and for elevation. Elevation is for them to realize the murders that they carried out.

(In so many ways, we saw change with the elevation of the Soul of one man, who according to the government, is the main (person responsible) for the majority of the murders of Iranians on the streets. This did not come by sentencing him to the international courts in Den Haag. He was ?? handled by a very old lady from Holland).

Sooner or later you have to understand the power you have, and the ability you have gained through the elevation of the STM. you have no choice. Then you cannot abuse it, because in abusing it, you abuse yourself. In trying to gain something in a way that is not the correct way, then it will be you who is losing, and not gaining.

(It's like for example the magnets on Rick's table. The one in the center is the Creator, and when you create wars, you'll be pushed more to the outer edges of the table. (When you plan something wrong you end up going in the wrong direction. The whole purpose of the Creation is servitude and nothing else. It doesn't matter how you look at it. Welcome to my (beautiful world) I hope you enjoy it).

In the test of this week and in what is to come, you will see a new evolution in science. (Gradually man will accept our knowledge, what we have been teaching over the past few years.)

But, just because we have learned the knowledge, and we can make the system, does not mean that we stop working. Actually now, we have to work much harder to change the mistakes of the past. And man has made mistakes for billions and millions of years on this planet. Now it's time for him to correct all those mistakes of the past. He will be busy for a few more billion years to correct all the mistakes of the past time. It is not our work to punish. It's our work to elevate, as you've seen yesterday and day before.

We went to Rick's teaching yesterday without any notice, because we didn't want (people to come only for this test.) There were 70 to 80 plus KS present in his show. We saw the change. How some souls are loved by some, and how some souls are elevated by some. (And how man puts himself forward to promote himself, when instead he should be the last one in the queue, and let things unfold as they should).

(We observed the transfer of the technology of the soul through the emotion of knowledge, and not through that of mechanical systems). In a way, you went to pray in the churches and the temples to find elevation for your soul, and by whatever name, you believed in it. Now, you have systems which can do that. But you cannot come to steal, or to promote yourself. (You are not able to gauge your progress), "oh, I was this size, and now I am that size, because in the next second, you can be "no size.")

Mankind will learn how to use these systems. Our team is edging its way to the final stages. We still have a long way to go to complete them. But the interim system made up of 4 systems will be released in the coming weeks, is another revolution in the whole of the technology.

To you it might not look like anything, but if you compare it with what we have now, this system is like a donkeys work. Even our own people who have produced it, have not realized what they are in for.

In a very easy way, we are transmitting between the physicality to the dimension of the fluid plasma. For the first time, the plasma power generators will come into operation. They will not produce electricity, but rather the currents of the plasma at the plasma level, which man has not even understood yet.

You're still busy with trapping plasma in CERN, and Tokomak. You have not even understood, that you're going the wrong way up the road. Man has made a fundamental mistake in understanding the process of the creation of magnetic fields. Instead of releasing the plasma to show its power, they try to trap it, and then squeeze it, and try to get power out of it. This is where the whole knowledge and whole process of understanding has gone wrong.

I remember in Barletta, Italy a KS from Spain was sitting in the front row with his wife, squeezing his eyes and body trying to move an object in front of him. I said to him, boy you have not learned. (why don 't you sit back and relax, and just ask the soul of the

object, "it would be nice to see you move, if it is your pleasure, to please me." Then you will see the object move).

To see the beauty of the flight of a butterfly, you have to let it fly. It will not show its beauty, if you keep it locked up. This is where the man has not understood the knowledge and the beauty of the Creation. When you let the soul go, it shows its beauty. Not when you are forcing and trying to trap it.

(In the EU, when you come in we try to encourage you to make another step forward. It's like a mother bird training her little chick on top of a tall tree. She encourages it, that it will feel safe, but also by nudging it forward to jump off and take the flight. This is what we are doing in the EU, nudging you. We say to the soul of the "bird" of the man, just try to go to the other unit, just jump. See if you can jump, and see if we can land safely on the other side).

(It's time to take the flight, which will be the last time you come back to the nest. You take the "flight of fancy" to the Universal Community. Then my job is done. I just give that little nudge for you to just try to go to the other unit. But I leave it to you, whenever you're ready. (We see you getting close as you were saying, your body is being shifted to the left side of the system, but then the fear comes, "what happens if I fall?" You just need a few more days to find the courage to make the jump). Some of the Canadians had their passport in their pocket, in case they flew somewhere and could prove who they were.

(We set all the systems the same, but some like the German couple could sit and cuddle on their partners lap, while others say, they couldn't feel anything. It's because you have not understood and established, that it needs to be a true love, and both sides have to agree).

(We are in the process of expanding the knowledge and it's a time of testing. It's like the process man went through to learn to fly in physicality. First he jumped off bridges and mountains to try to fly. And some people died trying, because they had not yet understood. But this time there will be no loss of life, because you are working with your Soul, and it can always brought back. But as you learn, mankind will learn to be kind to himself and understand how to be safe. Mankind will become the beauty of the light of the community in the universes, and not just on earth. But it's mankind who has to learn. The race of the man has gone through the harsh time of destroying and being proud to destroy. Then he blames the others for it, and says that, "what I'm doing is for your sake" (and for your own good).)

I said to the Iranian leadership in the past few days, let the people decide. (If you remember a few weeks ago, we took our love from the clergy of Iran, and within weeks you can see what has happened. Go back to my teachings, I said, "I have disconnected from all Iranian administration, because of the injustices." (We saw the result within a few weeks. The way it is, they will not be there much longer.) They might stay and keep their turbans in the mosques. But the power of the STM has been released. We don't take

part in politics, but we dictate the STM. They cannot find enemies (outside), because the only enemy is within themselves. In the coming weeks and months, we'll see the same kind of revolution across Iran.

In the coming weeks and months we will see the establishment of what we call, peace, and how things will go, and how things will take shape, and how we will see the transformation and transportation of the STM.

KS will gradually start testing the technology like what we did yesterday in Rick's program with many of you online. You can listen to it, and it'll be listened to by many in the future. It's the start of showing you to be your soul and to be part of what we are changing. We show the theory on Thursday and in Rick's program on Wednesday you can test the practicality and reality of the technology. Then we don't need Blueprint Days. Wednesday's will be the test to see how far humanity has gone across this planet. Over the past 2 days we had people from 20 to 30 different nations, races, and creeds, on the Internet. It's the teaching of One Nation, One Planet, One Race.

We will announce in the coming hours the establishment of a new organization, which allows the understanding of the correct conduct of man through (his Soul) for knowledge of science and technology. In a way, you cannot cheat anymore, and you don't need the patents anymore. You're responsible for what you do in your life, and to conduct yourself correctly. Then we'll see what will be the next move. We'll see how the humanity will change.

In the coming days, KF will ask the government of Austria to appoint an immigration officer in the Linz Center. The same will be asked of the US government, as the first man to fly into Austria will be an American. They have to stamp his passport that he left his nation, so that if he uses public transportation to get back home he won't have problems.

We are ready to go to that step. I have already discussed with our team in Keshe Foundation to start to work on this with the Austrian government. We cannot start the transmutation of the Mobile systems unless we have the full support of Austrian immigration officers within the center. They have to confirm that you have landed, so that you are not here as an illegal immigrant.

Yesterday in Rick's program we already tested this without you knowing. We were monitoring it in the background, which souls have arrived in the center, and who arrived by their pure wishes.

We received two souls within the Linz Center. One was Jalal, I hugged and thanked him. The other was Rick. He arrived in a very short time. If I would have accepted them in the system, then I would have had to explain to the immigration officers, that I have a body, which I cannot send back yet. (The next step is for you to learn how to manifest yourself when you arrive. You have to leave the life of physicality behind).

(Literally, the process is as simple as it looks). You don't need huge instruments and machinery to transmute the STM. You can do it within the structure of your own physicality. The most important part of our work is not to create magic, but to create a science, and from it a technology that cannot be questioned. It has to be in parallel with the full understanding of the Totality of the humanity, and not just for a few individuals. Otherwise, we'll again create another priesthood, with the lies and cheats of the past, where only the few had access to the knowledge.

The knowledge has to be accessible by the dog, man, cat, fish, monkey and the rest. Elevation of the soul has to be in Totality. We cannot create another elite group, where the man becomes the king of the animals. As we destroy the kingship within the man, we destroy the kingship within the whole structure of this planet.

We'll do it by ourselves through understanding the mistakes of the past. (We'll understand the future of mankind and be part of the understanding of Totality of what we can do and not do. We cannot override the others, rather we learn to accommodate the others).

(It was for this reason that we made these tests yesterday. We asked the KS in the flight room to choose someone to come to Linz. (But in Rick's team they already accepted a woman volunteer. But I told them no, it's got to be a man instead. But the soul of the woman had already traveled to Linz. Two people in our receiving unit felt her. They said, it was a Spanish woman with black hair.) And that was who Rick's team accepted). This means that we cannot override ??, and man cannot interfere with the truth of the one who wants to give. But we can receive it. The giver is always a giver. These little things continuously confirms how the systems are set.

In the beginning we were very conservative with participants. But now we explain a lot of things to the KS so that they understand. Because from now on they are part of the system, and they are part of the structure of the change for themselves.

The true life of the Soul starts the minute you leave the system. (Many of you can practice to see if you can do it even when you are away from the system. You have to learn more, and more, and be persistent to understand your own Soul, and not somebody else's). In a way, we give you the soul of the system, and we give you the soul of the knowledge of the man, and you try to do it.

We've seen many strange things by people who come into the systems, but it's in line with what we are doing. KS have come in (with the attitude of having to be in control. They say, "I have to understand," and they go away empty handed from the point of view of physicality, but the Soul has already reached the elevation).

We've seen people who come in with aggression, that they came to fly, and "you have to make me fly." But sorry sir, this is the flight of the souls, there's no room for physicality. (They are very abusive in the outside world, and they think it's their right to abuse when they come inside the system. But here we are in your soul, and your soul will not allow it).

(As I say sometimes, there cannot be any more hit and run accidents. Because when you hit someone you have to stay there and sort it out. Then you find out, that you don't want to be in anymore hit and run jobs. This is how the man will change. You cannot run away from what you set up. But you have to see why you set it up that way in the first place. You have to ask, why am I here?)

(I always said, I'm the judge and the executioner and I watch what happens. But the judge and executioner only watch, they don't interfere. I have watched how people who have misbehaved and did wrong, but then started claiming to be perfect, and saying it is somebody else's fault, and finally they say they didn't do anything at all. But it is all played back to themselves. they have to balance their books with their Souls. The process is very simple).

The time of hiding behind the curtain is gone. Because there is no curtain to hide behind, except your own ignorance. (It's the ignorance of not knowing that everything is on display, and can be played back at anytime). We are working to develop a technology, that can prove everything by science, so that there is no mysticism. (No more not knowing why things are the way they are. And those who took advantage of your ignorance and made temples, and became the privileged, and later the abusers).

The technology (of what we saw over these past weeks) will be displayed in front of thousands, tens of thousands, and hundreds of thousands of people. It will become the cornerstone for billions of people to watch and learn.

(The sessions over these past couple of days was not just to prove the technology, but it was for those of you who became Satellites, to accept your first position of spreading the knowledge).

(If we tell you ahead of time, then you come with a preset mind, and you set your mind to do what we asked. When come without preconceived ideas, then those of you who accepted to be Satellites), already start spreading the knowledge through your Soul. Your first test was done without you knowing it. We triggered the engine to see how it will go.

This is why we have asked, that as many of you who can, to become Satellites to spread and support the (change). KS who become Satellites give to others and to those of your nation and area. You have been chosen by your Soul to become Satellites, and it's transmuted through physicality. It's what I call, the psychosomatic condition of life. Those souls who accept that position, will do the same across (the planet). (This refers to psychosomatic, as you think of something and then create it in physicality, the somatic part).

Satellites in the sky do not distinguish between an Apple, Samsung, or another phone operator. It's job is to receive and equally distribute the signal. It's not for Apple exclusively. And if an Apple signal comes it can transfer it to a Samsung without problems.

(We're still adding to the number of Satellites. (The beauty of your Soul is, that it's not just the elevation of the STM that you will help with, but also you'll be trained to elevate the cat, the fish, the tree, the stone and the rest. Now you understand why we asked for more Satellites to join us.)

It's very much like when we asked for Universal Council members to join. It's your Soul that brings you to that position. You don't wish that, "I want to become a Satellite," if the Soul is not ready for it. Those who became Satellites have already understood this, because there's another dimension to it. They become the Satellites even for those who are not from this planet, but they are here as a man. They understand through the level of the Soul, and none of them ever listens to Knowledge Seekers teachings.

(You become like the man in Islam who stands in the minaret and shouts the prayer of Islam, so the rest of the village and district hears. Your Soul is like the sound of that voice, it goes out to everybody regardless of who they are, even the animals.) You have to understand the reason why you became a Satellite. Many of you will become Satellites.

The process of the testing this week was done specifically to awaken the STM across this planet. And it has woken up. We could feed it today two hours before the teaching started. Did you feel anything? Or it was just another day? The Soul has received it, but the physicality is still in a dream world.

In the next few weeks, KF will go in depth in the development of the technologies, so that we become immediately ready for transmutation and transportation. One of the targets in the very first trials of the KF will be the manifestation of creatures from outside this planet. We want to start familiarizing you with what it is, and how it looks, and how it will be.

It will not be any more just trying to get you from here to there. It's to familiarize mankind with what you might see in the planetary system flights of January and February. We want to familiarize you with the creatures of the Creator. (It could be shocking to you if suddenly you appear with 15 eyes and 20 legs).

We have to train you to understand what is to come. Then man will be ready to spread the knowledge of Mitra to the children, in a correct way across the Universe. As I always said, I was born a Zoroastrian, I will die a Zoroastrian, because the beginning and the end is the same. Man calls it by many different names, but Mitra always said, Think Good, Speak Good, and Act Good. This is the principal with which we created the cycle of life on this planet. It was Man who chose the physicality. Now we have brought what we call, correction to, not prison, but the freedom.

I hope you learned that today's teaching was the Live presentations of this week and Rick's program, because you all are part of it. We'll monitor how the bells in Vatican will

ring, and what we hear from Moscow. You still need to elevate the other two. Some work was done on Charles yesterday.

When you want to deal with residents of a house, you have to speak to the owner of the house. (It's he who decides what happens to the residents living in his house. This is why we brought in the Italian Prime Minister, who is the owner of the house, and the Vatican is the leasing tenant. The tenant's lease has come up for Vatican. It's time to give back to the nation its property and start a new life. This is for those of you who understand what this means. The lease of the Vatican has not been renewed this time. Now, it will go back to the owners. We take the stones of Vatican back to the Coliseum. And you as Italians, will do it, not us. But this time it will not be animals and men killing each other. It will be what I call, the arena for elevation of the STM to see the Universe and the Universal Community. Not as animals, but as equal souls.

End of Quick Index Part 1 454 KSW

We have to accept that the man has moved forward and there is no way to stop this process. The "cat is out of the bag," and we're moving forward. (The Keshe Coin was part of the structure KF is setting up for the future. Soon you will realize its purpose).

(One of the biggest problems with the man has been his pride of knowledge and the skills he develops, and the feeling that he owns it. Out of this came the patents, which resulted in the creation of people known as, those who are the doers, and to keep their position they became the cheaters, thieves and the rest of it. A man only pays you (for your invention) if it is patentable. And the others only accept it if it is in a patent). As the Saudis said to the Americans, knowledge is a gift from God, and (He doesn't patent it). So, Saudi Arabia is one of the few countries that does not respect patents at all, and it's a house of God).

(Nevertheless, man has to respect another man's knowledge, skill, and work, and with (that the knowledge will be spread). Then you don't need to hide, copy, and steal, and run, as we've seen with many KS. We deliberately put our knowledge out, as an open patent, to see how the KS would respond. We will show you why you are not succeeding, and what you trapped yourself into).

(In the beginning we told you, that whatever you do with our technology (T), don't forget where you got the knowledge from, and give something back to the KF. Today, Keshe Foundation introduces a new criteria for using the T, which is related to the soul).

(Many of you sold a lot of products, that you made from the knowledge given by KF, and you made money from it. You bought yourself a new car, paid your bills, and are making a living from it. But you didn't put anything back into the Foundation. Therefore, you are a thief! Now it's time to give something for it. Maybe now some of you understand why you have suffered with a lot of divorces. Because you stole from the soul of the Foundation. We work on that level).

From now on patents have no meaning. (But it is important for you to have respect, and work within the understanding of the soul of those who have been developing the T). This why we opened our patents.

(In a hidden way we gave you the freedom to do things with the T, and then we saw how much a lot of you abused it. From what we've seen in Germany and other parts of the world. You keep on suffering with it without understanding why. It's because in the physical life you think you got away with your stealing. You thought, "now it's mine, and I don't have to pay anything." Therefore, you didn't give anything back to KF. You're still suffering, because the Soul brings what I call, psychosomatic punishment. But it comes in different way, and you don't notice it, or connect it to the true reason).

Today KF launches a new Institute, which is more or less universal. From now on, man will respect intellectual rights. (Man will respect those who do research and what they develop, since man uses it. Man will respect the know-how of what another man has created and shared. Man will respect another man's skill, without having to be forced with patents. In this way, we'll have no patents, but others will still benefit from your skills and the new things you develop. Because it is a source of your life, you can't patent it. From now on man will respect artisans for the art they bring to us. It doesn't matter if you are a poet, painter, glassmaker, or whatever).

For this reason, today KF will set up (a structure to protect the rights of what we call, intellectual research, or artisans and people with the know-how skills). But this time it's done through the STM. KF will push through a new an organization called, IRKSAR, which stands for the Intellectual Research, Know-how Skills and Artists. No one will be left out. Even a writer and a poet are artists. We'll set up a platform on the Internet where you can enter your artwork, skills, and intellectual research, without the fear that somebody else might take it, and you would get no benefit.

(For those who enjoy and benefit by the use of this organization and knowledge should give something back. We don't put a limit on it. But there will be a minimum offering of let's say, about 1 to 3%. If you make something from it, then give back to the artisans for using their work, and even if you add their work to your own work. In a way you cannot steal anymore, because your Soul is aware of your stealing).

(For those of you who didn't put anything back, how many of you are still suffering and struggling? It's because you stole. Now we make it free, so that there is no more stealing, but you have to understand, and you follow the guidelines. There is no one to watch, and there are no courts, etc. (but your Soul is aware)).

Soon, this will become the pattern followed by the international corporations. You will see what we planned. Gradually we'll take over the patents, because patents are not respected. Because it's a matter state condition, (and made by force).

With this new structure every Soul will be aware of his own conduct, (and behave correctly. It's the job of your Soul to understand and to not try to cheat the others, by

thinking, "oh, nobody knows, I will just sell a few pieces here and there, and nobody will find out." Now you understand, that with this kind of attitude why you're still struggling). Have you ever seen a thief fully enjoying his theft?

(Soon KF will support computer centers for everyone to use and show their artistry, inventions, and intellect research. And they will give back, because now they know the (internal) punishment is bigger than courts and prisons. You punish yourself by not elevating your Soul. This new way of working will take away a lot of the stoppage and blockage in the research and development of the man. There will be no more hiding behind papers. The knowledge sharing will be open like how KF did from the beginning. We set the scene by opening our patents and freely sharing the knowledge. Even today's advancements in T are part of that knowledge sharing). We saw this a few weeks ago when we showed the work of one of our beautiful KS in France with his vineyards.

Mr. Keshe talked about and showed some of the different artwork with Gans in the Store on KF website. We are here to promote different applications of the technology, in different ways. Through these paintings the fields of the plasma will be spread around your home. The energy in the whole room where the painting is will become balanced. It's not the object, rather it's showing the application of the technology and what it can bring. (Most of our artwork is already sold out. It goes fast when we post it in the Store). If you have a skill, share it with us. You can also commission some of these artists to do artwork for you.

Very soon, with KF means, six months to a year, not tomorrow.

KF will open its own IT (computer) center. We are working on it. We'll have our own servers, and "center zones," it will be very much like a "Microsoft center" of the Keshe Foundation, everything will be under one roof, from designers, programmers, and everyone else.

Creation of life on this planet - Man is from Earth itself

Q: There's speculation about who seeded humanity on Earth, was it the Anunnaki, and there's evidence of giants depicted on Sumerian tablets. Mr. Keshe, who seeded humanity?

K- (The conditions of the Earth itself. (Originally the Earth created its own life). The 4 seasons are created by the few degrees tilt in the axis of the Earth. (A tilted planet create more M field interactions than a straight up and down axis planet. Somehow these fields, through a balanced common denominator, interact with each other, and this leads to production of different materials. Once this condition is created, the water, O, H and the rest are made).

(But what came onto the planet after all these things were created is a totally different story. Man himself was created here, but other beings through the dimension of the soul can manifest here in the shape of the man).

(The creation of life on a planet is structured through a sequence of developments. One following the next. The scientists have not yet understood the sequence of the development of life on this planet). (For example, when you produce Gans's you follow a sequence. If you don't have all the different parts you cannot produce the Gans. You need a container, Nano coated plates, water, and salt. If any of these things are missing you can't produce the Gans).

Life is the same way. It comes in sequences, and when one step is finished then you move to the next one. (The new condition of the position, creates (the conditions) for the next step. This is true no matter where you are in the universe).

(The sequence of events that took place for life to be created on this planet are as follows. When the rays and M fields of the Sun radiated out, some of them turned back in and interacted with themselves. The interaction of the fields created the gravity, and interaction of the gravity and M fields, of receiving and giving, created the dimension of the planet. These interactions amalgamated and began to absorb other fields to themselves, these created plasmas started to form pieces of matter and as they accumulated, they created planet Earth).

(Now you have fields which are like a loose bullet in the fields of the Solar System. This acts like a knife on the edge of a fast rotating sharpening stone, that creates sparks. Those sparks are different and not all the same. There are big, long, and short ones, as well as O, H and other materials getting created from the sparks. The Earth acts like a container for these materials, then the water gets formed, and the next condition gets created, and so forth).

(The process of the sparks creates other things as well, like the Zn, Cu, salt, and the rest of it. Then these materials in interaction with each other within the oceans, and at the right temperature and condition, started to produce Gans's. You have to have the right conditions, then you create the right Gans. As the Gans's amalgamate with each other they create rotation, and then you start creating life forms). This is exactly what happened on Earth.

(On the Earth was created the water, salt, sand, and the soil. Now if there is a matching life structure somewhere else in the Universe, that can survive and fit into this environment, then they can replicate themselves here. I explained this years ago when I taught about the horseshoe crab).

(This is the origin of the Earth, and then the physicality of the man was created out of these conditions, here on Earth. The man comes from the Earth itself).

(However, when the STM interacted with another physical dimension (that was not from Earth), but was matching the conditions of the Earth, then that knowledge can be transformed and transmuted to the physicality of the man). (Their physicality will appear as a man. But this is another condition of life, and not the origin).

The race of the man we see today, (was not the only one). Initially, when the Earth was created, there were thousands of "men similar things" (species of Man). The man you see today on the Earth is the one who was stronger and started dominating the others. (As the dominating race was spreading across the planet, it (mutated) itself into different colors and races).

(This is the origin of the man on Earth. He came from the interactions of the Earth's own fields. But once you create a condition of life on the planet, then the other's can come and live in it. That's why 30% of the population of this planet are from outside. They live here in the conditions of Earth, but they're not from Earth. In Farsi we say, "whoever has a mustache is not your uncle." Because all the Iranians have mustaches).

Life is not the exclusivity of Earth, but is created out of the conditions of exclusivity of the interaction of fields of this planet. So, the man came from Earth, and wherever the man will go in the U he will always carry the fingerprint of the soul of the Earth. (The soul of the Earth is the common denominator of all the species on Earth).

(The creation on this planet is subject to the soul of this planet. So, we all have a fingerprint of the soul of this planet within our own soul. We also have a fingerprint of the Solar System, galaxy, and U within our soul. When we go to the other universes, the people there will see us and say, "oh, they are from that galaxy in that universe." They know that by the fields you produce).

Earlier today, when the lady came out of the FS she said she saw the first light leaving her body, which was the STM, and then the second light, which was the STP. She could distinguish between the STM and STP, and her own physicality. It's the first time we get (confirmation of the different souls in the body, and that we can be aware of, and understand them. The STP (shows) where the man comes from. Then you see the soul of the planet).

If you leave Earth at the point of death, you'll carry the fingerprint of the Earth with you. If you position yourself as a new soul, or as a new star in another galaxy or U, you carry all the fingerprints of where you came from, through the field interactions.

(In the dimension of the Soul, you know where the soul comes from through the field strength, color, and the interaction of the fields that attract you back to Earth. It's just because we didn't have this knowledge, that we were not aware of it. Now we are aware and we understand it).

(The new systems getting built will have the capability to create the conditions of Earth in one system, and the conditions of other places in the U, let's say Moon, in the other system. If we put a creature of the U, (who is in the body of the man) in the system, since he carries the fingerprint of his home, we can create the conditions of where he is from, and understand that environment. Then we'll see his conversion back into the human body).

A lot of travelers of the universe are in the black skin. (It might be a surprise and shock to people, but in time you will see it. Because when the travelers came here, it was the time of the original creation of life on this planet, which was a black man. The other races are mutations of the black man. I explained before, that when I was sitting in a cafe in Ghana, I saw one of these travelers, and he tried to hide behind the lift). (When we look at people we see their origin, and not the mutation of the race). Then you understand, that life originated on this planet according to environment of this planet.

Q: Will the change on this planet be gradual or instantaneous?

K- All of our work is instantaneous. (In our flight systems you don't fly somewhere, you go places, you instantly arrive at your destination. It's because you travel in the dimension of the fields of the universe). Life of the man is too short. What is to you a hundred years is a microsecond to another creature. So, it's instantaneous.

Q: (Are people happy with a short lifespan because they don't know any other?)

K- Yes.

Q: (How do we expand out from the conditioning of our environment?)

K- It doesn't expand out. (It simply is the condition of what I call, the "schizophrenic condition of the man." We think that because others can't see it, that it is hidden. But just because we ignored the energy, or the Soul, when we leave the physicality it doesn't mean we are finished with the Soul. This is the beauty of understanding the full truth about the life of the man.

(In both conditions of life, P and the Soul, you have the capability of mutating within yourself. We call it psychosomatic. What we do psychologically, somatically or physically appears. But we never understood that there is also a somatic cycle. (meaning what we do physically also effects us psychologically. We always considered that the physicality stopped at the brain level emotion). But we haven't understood, this field goes further to the soul. That's where it effects your life. Now we are also responsible for the physicality.

Q: Does the universe exist? Or is it just within us? Is there actually something outside of ourselves?

K- We live within it, and it lives within us.

Q: You always talk about leaving the planet. If it's within us, we don't go anywhere?

K- In a way, yes, and in a way, no. Because there's no time, place and position. That's what we call it, "zero time." How can it exist, when it doesn't exist?

Q: How does theology explain this?

K- There is no theology. This is a fact of life in the dimension of the motion of fields.

(Some people in the flight zone say they didn't feel anything. Then we put them back in and they say they enjoyed it more than any other time. First they denied it and then they created the enjoyment).

Life in the physical condition is a mirage. But it's only a mirage in the fields of the universe, not in the vision of the man. The sooner man finds this out, the sooner he'll discover, we are the beginning, and we are the end. There is no time in-between one and the other.

(On Earth we call the time of 1 year, 365 days of rotating. But in the same Solar System we have huge planets like Saturn, where 1 year is the same as 29 Earth years. So, if you lived (29) years on this planet, you've lived almost nothing on Saturn (1 year). You didn't even move from your infancy. But in fact you still existed 29 years in this Earth dimension). When you're 60 years old, you're only two years old on Saturn. But the frame of reference of the Solar System is the same. The Sun hasn't changed its position. If you scale up the time to Saturn, then man is at zero time. We are living in zero time in the dimension of the universe, or in the Unicoise, but we're so proud to live 60 years or 80 years. Time then doesn't exist.

If you (compare) 1 year on Earth in the physical dimension, to 1 year in the Universal dimension, it makes physicality zero (because 1 Universal year is maybe hundreds of Earth years or more). It's the same in the dimension of the Soul. The Soul does not age, but the physicality does.

Q: Is it from the (time) of its creation?

K- Yes, from the (time) of its creation. That's why it says, "I made man in the image of myself." Because it's Me there as you see, as I am here.

Jalal and Rick both arrived instantaneously, even though Jalal arrived first. The Soul takes place in the dimension of the magnetic field time of the universe.

(This is the difference between the physical children of man, and the children of the STM, or the children of Mitra. When the physicality is created out of the Soul, it's everlasting. It comes from the time of the beginning to the end. You haven't realized yet what this means. KS just listen to the teachings, but they don't fully comprehend them, or understand what they involve. They don't understand what is about to come).

When you create children in the dimension of physicality by interaction of the male and the female, a sperm and an egg, you create in the dimension of the life on this planet. The person is limited to that lifespan. But when you create the children of Mitra in the dimension of the Soul first, you are part of the life of the Creator. It never ends. It's the way He was created.

Q: (But isn't it the same? A child created in physicality, also has a created soul. Isn't that soul the same?)

K- No. It's different. When you create a child with the physicality, the Soul is a prisoner of the physicality. But when you create the child in the dimension of the Soul, it has the freedom of the Soul, and the physicality accompanies it. Then you can take shape anywhere in the universe.

If you take the man into the water, which he's not used to, he dies. But if you take his Soul into the water (it doesn't die, it can exist as the same Soul whether it's in the air, water, or anywhere else in the Universe). You KS have not yet understood this. This is what it means, that the children of Mitra have everlasting life in the dimension of the Creator.

Mitra is amongst us now. She has been born in that dimension. She was created in that dimension. Even though she has a physical manifestation.

This is what is to come. We will give man the option to have everlasting life in the Universal Community. Because the lifespan on Earth is like a flash.

Q: Is this why the Universal Community do not show themselves here?

K- Partially. Do you go somewhere where there's a riot, mayhem and killing? Or you avoid it?

Q: Me personally, I avoid it.

K- Me personally, I got involved in it, to stop the fighting.

Q: Yeah, thank you Mr. Keshe.

K- It's not easy.

This is part of understanding the life and to change man from dimension of physicality to dimension of the fields of the universe. The tests we've done this week have shown how beautifully correct the system has been made by our team in Linz.

A KS commented that the souls of those who are building the system are entwined with the system. Mr. Keshe said, when you go to a party, you take those with you, whom you enjoy to be with. You don't go there hoping somebody will be there. And that makes the party enjoyable.

The soul of those who you see with us, are the souls we know from the past, we just put them in different clothing. We've already been together at many parties. When you see people around the Foundation and around the world who do things for us, these are the chosen souls, the friends we know and came here with. That's why we can do the work so smoothly, because we all know what it is we have to do.

Q: Is this the moment for the change to take place?

K- The moment of the change started from the time when the first man was created. (When Mitra fell in love with the Earth, that started the change).

You know how when you have a beautiful partner, child, or painting, then you want to take it around it to everyone to show how beautiful they are. This is what happened to Mitra. The love of the Creator got in touch with the fields of the Earth. She set out to show its beauty to every lover across the universe, even to her own lover, which is the Creator.

So, the change started from the time of the beginning, and not just now. This is part of the evolution of that change. There are many, many more changes to come to this planet, which this new change will bring.

I said to the couple yesterday, if you wish I can make you pregnant in this room, this instant. If I put you both in the systems, you can have a child, if the wish is there. The system and the knowledge for it are already here.

Q: (This soul that they create, can it choose to be in physicality or to travel the universe?)

K- (The 3 together make the decision. Because the physicality of the mother and father will be here on Earth. But like when you take your child to different parts of the city to parks and to game places, so too will the souls of all 3 travel together. Their physicality's could be here on Earth, but the souls can be traveling the spans of the universe to see the beauty of Creation).

Q: And when the child matures, what happens when it meets another soul?

K- It has the same freedom (as in physicality to join with another.) When you put a magnet on a table and then you put Cu, Zn, water, or potatoes, the magnet doesn't get attracted to it. But if you find the same field strength of another iron magnet, then it gets attracted to it. It's the same, (with the souls), no different.

But as we have shown, you can even magnetize plastic and an orange, if you know how to handle it.

Mitra fell in love with the Earth, and Mitra, through the love and understanding of the love of the Creator, brought the Creator to see the beauty of what He has created. Not many places in universe have been visited by the Creator itself. Mankind one day will understand the privileges he has had, and how he abused these privileges in the name of religions.

Q: Does the balance have to come, for the souls that take that energy?

K- In a way, the soul balance is (already) there, it's just the physicality has to appreciate, confirm, and live within it. Nothing else.

Q: (Is this balance for everybody in the physicality, and then when you expand out, you become more than just the physicality?)

K- More or less.

You don't see a black, blue, or orange soul. The soul shines, and the light it produces in the dimension of the observer becomes black, blue and white. When you got a red light, all the traffic sees it and they stop. In the dimension of the soul, the light could be black to me, yellow to you, red to another. It goes according to what I create. This is the difference between the dimension of physicality, and the dimension of fields, what we call, the Soul.

(Go back to the medical teachings which was done with Dr. Elyia Kostova. Those works, if you understand it, are the cornerstone of the Creation. We had the privilege of Dr. Kostova with us in those days. The knowledge of every organ of the body of the man is the cornerstone of the Creation across the universe. But you have to understand it. What does the kidney mean in the dimension of the emotion and the STM? What does the heart mean? It was a great pleasure to be able to teach in those times. If you understand it, it explains a lot of things, even how the universe is created. And how the shell of a galaxy is created. You call it the skin of the man. All you did was change the name).

Look into the universal dimension. Why do we have certain galaxies (spinning in the opposite direction to the others. Are they extracting what the others don't need, then you call it a kidney. But our scientists don't get it. The Macro and Micro are the same. (But where do the fields that are extracted go? Or do they get poured out into the Unicose?)

It's all the same. We just are blind to see it. Correction, we have chosen to be blind to see it.

Q: Why do we do that, Mr. Keshe?

K- You and I have been battling this situation for about 4 months. (Even though I tell you to just wait for when it's the right time, still you jump and get agitated. We are all here to be tested. There's a reason for it, in the elevation of the Soul).

The good news is, that (situation has been) solved this morning. We'll see the new dimensions in the coming days.

I was explaining this very recently in a different dimension. The "Tribe of Moses" created mayhem for mankind. Through the dimension of greed. But the same tribe of Moses, being matured, has become the protectors of the Foundation. One day I will explain.

Q: That's intriguing what you just said there.

K- Very intriguing, very intriguing. One day I'll explain. The mayhem which came (to humanity) at the time of Moses, and in the past centuries, (has flipped, and now they've become the guardians and protectors of the new change).

In a way, the soul of Moses is putting back right, what he did wrong. One day the KS will understand. No one has protected and supported the KF more the children of Moses in the recent past. They even brought the Islamic world around. They are putting the wrongs of the past right, even through the world of Islam.

There are things we can't disclose, but in the future we'll open the books, as we always do. What you will see? I keep on telling you, it's about to come, and the changes will be so big. It's thanks to the blood of Moses and his children. They'll bring the change in the Islamic and Christian worlds along with them. What they did wrong they're putting right. This will change a lot of things for a lot of you. Soon you will understand. That's why both bloods were chosen to have the outcome. (I think he is referring to the Methi being of both Islamic and Jewish blood). Very, very soon, sooner than you think, you will become aware of it.

Q: I'm looking forward to the moment when all the souls really realize, regardless of the STP of the person. When the children of humanity really understand what has been brought forward. Thank you, Mr. Keshe.

K- We shall see it in the coming time.

Q: Why do souls come to the Earth, where they have to experience sickness, and so much sufferings?

K- Oh, this is the arrogance of man. Souls are everywhere in the Universe. It's not exclusivity of this planet. Why some souls appear on this planet, it's the same as how the Earth was created out of this Solar System. It's a collection of incidents, accidents and some (deliberate intentions,) that's all it is. Souls are not exclusivity of this planet. It's the same with Life, it is not the exclusivity of Earth.

If we've been told that even a stone has a soul, then have you seen how many stars and planets there are in the universe? Where is their soul? Just because we want to think that Earth is the only one, and that others don't have a soul. We can live in that ignorance, but the truth is different.

Q: What is the definition of plasma? Is it an entity with a soul consciousness and intelligence, that can express and define itself? Is plasma technology a living being with a soul? Or creators like Suns?

K- It's exactly as you said. If a man has a soul, so too, a soul has a soul. It has an operator. It's not a football team without a captain. There is a structure to it. I always go back to, "I made man in the image of myself."

If the man has a soul, then the STM has a soul of itself. (It comes in a set). (The STM has a central operator, which is connected to the Soul of the Creator, or in its essence, is part of it. A star is not created out of nowhere, on its own. It has received fields, which has led to its creation. Those fields have a pattern of work. If all the stars do the same thing, like rotate, then it means there must be a pattern set in the center of all of them. This is what we call the central forces of the Creation).

Q: We see many people coming out of the flight systems in Linz and each one of them has a different experience. Some experience a lot, and others very little. You have said,

that it depends on the readiness of the person. How then is this technology going to be used by all of humanity, if it takes them being ready for it?

K- It's like a classroom, even though you're all in the same class, it doesn't mean you all understand the same thing. Some of you are good in math, others in art, and still others in something else. (Even though you might not have been good in math, somewhere down the line you'll end up having to use it. Because it's something you were taught, you'll be able to use it when the time comes).

The knowledge is the same. It depends on how you want to use it. It's not a position, it's the readiness to accept, to understand. It's like I said about the "day of judgment." The day of judgment is the day when you understand, and you realize the reason and the purpose of Creation. That's all. (Why when we are frightened, do we call out, "God save me." So we have always been aware of it, we just ignored it).

Q: Yesterday in Brazil, October 12, was National Day in commemoration of Mother Mary, mother of Jesus Christ, holy be her name. How to separate the dominion of religion over the truth from this wonderful conception of Jesus? Thanks for the guidance.

K- It's all a path of belief. It's what you accept about her. To some people she is no one, and to others she is everything. It depends which side of the fence you sit.

There's a long discussion about it in the Islamic world, where you have Fatima, and where the Christians have Mother Mary. But in essence, it's the soul of giving, the soul of Creation and how we want to respect that.

(If you look at the essence of it, who was she really, and then what was she made up to be? You have to look at the conditions of the time when the story was written and what was the life of normal people like. How did they get married? Was there even something called marriage for those who were not believers in any religion? Who was the father? Was the story of Mary written to create a mysticism? Or was it a fact of how it happened?)

"Soul of the Christ" was added to the soul of the Child later

The reality is, that a child was born to a woman irrespective of (whether or not it was a "virgin birth." The "Soul of the Christ" was given to that soul and to that physicality. The soul created by the egg and sperm of Mary, or the father of the child, was not the "Soul of Christ," as the belief in it goes. The soul of Mary's child was chosen for the manifestation of the "Soul of Moses." (The same Soul that was in Moses).

(All down the line, it's the same soul, it just plays a different game. It wears different clothing, and one day it's here and another day it's there. Are you a different person if you're in London today, New York tomorrow, or in Beijing the day after? One is in a suit, the other in summer clothing, and the next in winter clothing. This is what man hasn't understood).

The rest of it is a play with the words in the books to make the priests important. (The child was not born with the Soul of the Christ, it entered later. It's a big difference. (It's the same Soul that entered Moses and the Christ). And it was the same with Mohammad, and it's the same in my time. We are not born to the soul. The soul is given to (a body) to manifest itself).

The birth of the child of Mitra is very different from this. (The soul is there first, and then the physicality is manifested from it). Once the man understands, you'll wipe out all these names like Mary, and the others. One day man will understand this.

If you go back into the teachings, I've explained this a few times. (You become aware that the body does not own the physicality, it doesn't feel what it is. It's added to, then you have both dimensions of physicality and the soul).

Q: What really happens in the elevation of the soul?

K- It becomes more aware of. It's awareness. That's all it is. When you are at a higher position you become aware of, and understand what's happening below, and what led you to be in that position. You become aware of more.

Q: What is consciousness when you have the elevation of the soul?

K- Not much, it's just that the life, the soul goes through its process, understanding, and its work.

It's like what happens to you when you go from class one to class two. You just mature to it and you understand more. The alphabet, the sentence structure, and the numbers don't change (when you go from class one to university.) You just learned how to play with them more. It's the same with the life of man and the physicality of the man and his soul.

Q: What is the role of mass media? Do we need to elevate the newsmakers, so that the new knowledge will become more reality?

K- That's our job and we are doing a good job of it. We got to stay under the radar for a few more weeks, then you'll understand. The mayhem will start. We just need a little more time, everything is getting setup.

(There's a huge, huge operation going in the background to silence the KF for good, by Christmas. We've seen it in black and white, we've seen how they have started operating, to wipe us off the Internet). I'll come to it when the time comes.

But on the other hand, KF has its own agenda and its own work. But there's extensive work by Vatican through the Belgium government, and their servants to bring us totally off the Internet by Christmas.

We have our own work, we know how to handle it, and we'll see. The Vatican and the Belgians have been working on this for the past six months. They are trying to make it all look legal, and make it permanent. But they didn't realize that the "children of Moses" have made a much bigger movement than they made. We have a huge support within the Iranian community. The religions will keep the KF back on its track, not the governments, and you will see, that's when the governments come to an end. We never asked them (Children of Moses), they volunteered, they put everything on the line to make sure it happens. It's the same with the Islamic world. (Somehow they came together to make sure, that this time the change goes through the correct way)

Rick was very impressed and pleasantly surprised by all the Testimonials coming out of Brazil. He said, up to 1,400 in number. So the technology is being spread. A lot of it is due to Rafael and his translation, and putting together documents, and so on, as well.

We have a culture of television and news. Somebody said years and years ago, "I'll believe in it when it's on CNN." (People inside the news world told us that, KF is banned from CNN. There is a total ban on KF in Fox and CNN. We have KS inside in influential positions who want to bring it out, but they said it's impossible. KF is one of the only scientific organizations to be prevented from being reported on in the news. For what reason? Just because we didn't give the technology to the most pedophile nation on this planet?

(We have unraveled how the pedophiles are using the banking system to do their work. We'll open that very soon. It goes back to when Alan Sterling came up with the phrase "free energy." Free energy was actually the name of the children. The life they took, it was free).

(How many of you would like to bank with child traffickers? There are two banks which fully operate with them. We'll unravel even the name and how it's been set up).

Q: If the Internet goes down we can work in the dimension of the STM.

K- That's why I asked you if you felt something at 7:30 am Central European Time this morning. These people thought they can come up with a legal structure to stop us. But actually they brought our whole process ahead 5 or 10 years. (Now we can put it into immediate action. You will see it, but give us time).

If we could not have handled the move by Vatican and the Belgian monarchy in the past few weeks, we would have come to you, and cried out for you to copy things, and make sure you keep all the work we have done that's on the Internet. But we are so confident, that it will be handled in a way, that it will bring the breakthrough most of you've been waiting for.

This was the most stupid move they could have done. I was shocked when I saw it. But I was also surprised, and I thought, that's it, the end has come. They chose it, not us. They

chose the battle. Again by deception. But this time they haven't just shot themselves in the foot, they've shot themselves in the heart.

The Canadian lady in the system was able switch back and forth quickly between the STM and STP. They have scales on the system and when she switches they see a weight change. She could go to a weightlessness in the physical body. He never saw anybody move so fast between souls. She could let go of the STP. The secret was that she could detach. She said that's what she's done in her real life, she can let go of things.

Q: I heard about AI intelligence, and that they're creating artificial brains. Are they going to be able to create artificial human beings?

K- Once you create a system, which has an interactive field flow, you call it, a current, electricity, or whatever, there is a central dimension of fields. In the near future, scientists will (have to make the decision whether to abuse the knowledge, or to use it constructively. How the man decides, is what it will lead to).

Would we create an artificial soul, I mean, (it can't be artificial), but a soul created out of the interaction of the fields, which man has decided to make? What (kind of creation would it be?)

You cannot make artificial super intelligent systems, if you don't consider the soul. Once man learns this, we will see different kinds of artificial intelligence. That has been in the cards from the day we built the first system. I always looked to see if the Chip manufacturers could understand the flow of what it creates. (It creates a different dimension flow. The superconductors and memory Chips, could be made so small). But they haven't come to realize that yet.

There was a small hope that this might be realized when the cubicle memory banks were getting pushed through with the "Blu-ray." But somewhere it got lost.

Q: Would the artificial humans ask, who is my Creator? Where is my Creator?

K- Mr. Chip. Maybe. But would they be able to create a condition of flexible muscles, as we humans have? If they use natural materials. There are certain ways you can do it, which we don't want to open up. But there are certain ways you can actually create that condition. We have enough trouble as it is with the physical system we are making. How to teach, is another thing.

Q: (It seems that the life of Virgin Mary and Fatima, the daughter of the Prophet, were very similar. Could they have had the same soul?)

K- I know the truth, but I prefer not to discuss it. Because it will offend a lot of religious people. We're having enough problem as it is, with these turbans, and their beards and the funny hats in Vatican, and everywhere else. We muddled them enough.

We hear, that since we played with the elevation of the Soul of the Pope, a lot of things are about change in Vatican. You will see very soon how the Vatican will respond with the changes. Just watch the space, as we say.

Do not be surprised if you hear how the Ukraine situation was arranged and set up. How they took the opportunity to ... If you look at it, the only winner in the Ukraine war, is the United States. They brought European nations under full control of America, through the fuel, food, and now everything else, which Europe needs.

It's just like back in the Second World War. The US used to ship everything to Europe. Now all the gas and grains comes from America, because there's a shortage. All the financing and the banking comes from America, because Europeans don't have the finances to do it. So, we're back into what I call, "cold zone" situation. But, all of it is to the benefit of the United States, (which benefits of Rothschild's). Even the old weapons that couldn't be used in Afghanistan, Pakistan, and Iraq, are now all getting shipped as fast as possible to Ukraine. The Ukrainians will have to pay for all of it later on by invoice. (Just like what was done in the Second World War).

Ukraine was one of the biggest threats to the American grain sales. Now they have taken it out. The same with the Russian pipeline, it was one of the biggest threats to the American domination of the gas supply. They blew it out. It's a one way traffic of benefits. (Now they are able to make money off the old stock of weapons in Ukraine. I'm sure a lot of you have heard about the drones which the Americans sold them, but they're actually firing back at the Ukrainians themselves. Because the Americans sold them the types that didn't work. It doesn't matter to the Americans if (it kills a Russian or a Ukrainian, as long as they get paid for it.

Anyway, let's see what the world brings.

END of Quick Index 454 KSW

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

(:12).

K- Yes. Good morning, good day to you. As usual, whenever and wherever you listen to this is of Knowledge Seekers of the Keshe Foundation Spaceship Institute knowledge sharing. We thank many of you who've been with us on Tuesday and Wednesday. Some of you missed the Wednesday, because we joined, we linked up as part of the live testing with Rick's workshop. It was literally a workshop for many of the Knowledge Seekers (KS) who are around with Rick, and many others to test the new knowledge. In a way, if

you were with us go back to the part of the Wednesday with Rick. It became a public testing zone.

As you can listen to the recording, we brought your inside the what we call, flight test. Your wishes, their wishes, their decision, and the people who came in, the three Canadians, you will know one of them was a comedian. It was a beautiful job that we did. And we learned a lot.

We tested something which cannot be explained outside, (:14). but maybe you can understand. We have the capability to accommodate two people in one seat. We asked the Canadians, the couple who came, they're both very thin and slender to join each other on one seat, where the one partner sits on the lap of the other. But both within the confines of what we call, the same what we call, Head Unit. This was an important test. One of the final tests we had to do to confirm transmutation of the "beautiful people." Where we make one body join together as we see it, but 2 souls. To see how they react. To see if the 2 souls work independent.

As we had the beautiful people in our systems, we see one body with a number of souls operating entirely, where the human race is now ready. But then we hear new systems in the coming time. Each soul speaking for itself. We see a collection of lights within the system.

And the beauty of it is, in the coming time, we'll see, as we done in many other things, what happens when these beautiful people decide to open up. One decides to go to Germany, one decides to go to Brazil, one decides to go to Australia. What would happen to the division of the physicality, where the common soul exists within the matter of the Soul of the Physicality (STP).

These are proof of what is to come. When we open it up again, (:16). in a couple of months time with the new systems, which are under development and production. We will see ?? not one souls light. We will see a number of soul lights. Then, what would be our reaction? We see people we've never seen before. But they're all from same origin, from the same mother. It's like the mother giving birth, at the same time to one Chinese, one black, one white, one Australian, and one South American from the same womb.

We are not used to it, but we are, we have to get prepared for it. Because with the tests of yesterday, confirmed to us, we can allow, we can give room to beautiful people, to show themselves in the essence of themselves. They are not criminals, got to be confined into sanitariums, and mental Institute's. Where we should have been in there, and let them free to live their lives. We are the criminal, not them.

We saw for the first time .. this week (Tuesday Live Flight Tests), when one of the Knowledge Seekers watched her own Soul, and the STP leaving her body. You were doing the tests with us (you were watching it live), when we explained it. And then she asked herself a question in the matter of the physicality (P), "what am I doing here when

they come?" For the first time, we've seen the departure of the 2 (souls STM and STP), could clearly explained by the KS.

These technologies are in a way, hybrids. (:18). Hybrids of physicality and energy of the man you call, the Soul. You buy a hybrid car, petroleum and electric. Now, man for the first time can see, can operate, can feel the hybrid system he is made up.

The beauty in the testing of the past few days has been an amazing cycle of changing. As I said, with what we learned in the past week, two weeks with the flight systems (FS), we had to change all our systems in production. And as our guy said, we are delayed by another two weeks, maybe three weeks, now we have to implement a new understanding.

We have all the time in the world. Mankind has been ready for this, has been working to this topic, for billions of years. What does a few more days, a couple of weeks, will change? Not much. In the coming time, when is the right time, will come exactly where it should be. Even these delays are preset for us, to get that time. It's just waiting for the game to start. A little bit of delay, but when the game is starts, man will be the front runner in the game of the space travel through the dimension (D) of the Soul.

What we learned this week from our systems is, one after another. Last week we saw. We saw the fly of the Soul and STP, and even the combination of the energy of the physicality, like that, leaving the body. We had just a body on the table. But knowing what we do, the way we build the systems, we can always recuperate from it. We got the KS back in its position.

The beauty of it is, (:20). that now we gained enough knowledge. We have enough technologies in our hand, that by introduction of the new systems, which are coming into Linz in the next few weeks, we go directly for transmutation and transportation (T&T), make a few tests in the center, and then test across Mobile systems, and Satellites and what we call, trans-planetary system, where you can go from Africa, to China and our people in China can confirm online, that you are aware of. You might look Chinese when you arrive in China, but you carry a paper to show how you looks, when you're back in Africa.

It's a beautiful thing, if many of you have not seen or heard of. When you travel from Ghana to China, you see Chinese who speak Chinese, but then you see blacks who speak Chinese better than the Chinese. The Chinese community in some cities have a number of black Africans who live in China, have children, married into natives. And they learn the language. When you go to the Chinese Embassy you see a black man talking Chinese behind you is another Chinese, with another black man. You just go, wow, what have I missed?

It's very much like when you have a psychological, or some sort of brain lock, that you expect certain people to speak certain ways, but not this way. When you live in England, every time I saw a Pakistani in England they spoke English. But you go to Italy, you see ?? they speak Italian ?? ?? speak in English. (:22). How can we be a British colony. I

left a long time ago, I don't know England. And then you have to reset your brain. Pakistanis can speak Italian too, and accept it.

It's a change of understanding, and this will come to all of us in the coming days and weeks and months and years. Not only we have to accept, we can be in speaking, as we saw last week, the girl could speak fluent English. Before we had a heck of a time getting her even to understand English.

So, we are in for a bigger surprise. We are looking for the Chinese who speaks in the native African language, but that's nothing. Now we have to understand the language of the Universal Community. We have some Knowledge Seekers who claim they come from Universal Community, and we, all sorts of things using the Keshe Foundation. But soon you will see if they are lying, or they're using the Keshe Foundation, and ?? excuses ?? to make no ?? We see that in the Iranian community. This is ridiculous to see how things were set up.

We will see the true essence of the knowledge. We will see the true understanding of the knowledge, and then you'll understand what is to come. We heard yesterday people not want to eat. We transmuted water. We sent packages. We received packages, did it arrive? Some in different shape or form. Some people guessed. Some people from the control room flight center, sent material to other Knowledge Seekers, in live with Rick. Some received something, (:24). Some were too shy to say what they received. It's the emotion, it's the field.

I want to ask you all today, now it's about 9:27 Central European Time. Exactly about two hours ago, I send a message to the Soul of all the humanity. I wondered if you felt it. The energy and the message were so strong. That I literally lifted off the ?? floor of the Enhancement Center. It means if you are ready, you have received the message. You have received the love. You have received the knowledge.

Go back and see, did you feel anything in the past 2 hours. As one of the Knowledge Seekers says, I just had for few milliseconds, just the taste of the chocolate. Did you ?? receive the taste of the love of the Creator. Then you are ?? enlightened. Then you understand the change is about to come. Then you understand the humanity is ready for transmutation, transportation, and many other things, that the man needs to do.

In this process of change. In this time mankind has become ready to accept the change. We are just the tools. As I said, if the aliens as you call them, have brought you the knowledge, and this was a knowledge of aliens and just imported. (:26). Now the machines, systems are made by man and the man has excepted, has to accept has no alternative, has no option, but to understand its mature by himself. Man has matured that he can make this system, and through it he can make and understand his own creation.

If we would have given you a UFO, it would have been, "they came and gave the knowledge." This time we transfer the knowledge through Linz, we build it here by man, that the man becomes aware of his own advancement, understanding of the knowledge

and the technology. We have not brought anybody from the aliens, from outside the space, to build these systems. It's made by man, for the man to understand the evolution, and revolution in science and technology, and evolving to understand the science of Creation.

If we would have brought it, and gave you the system, and I could get you to see what other things. You all would have been what the Christ did, resurrection of the dead. By this time you're getting, you're seeing, it's made by man for man. And that's the change, as we said all the time, the change has to come within. Because, otherwise man goes back to the donkeys and to everything else he did centuries ago.

When you build the most beautiful motorway on a beautiful land, if you leave it, it goes back to the land. But if you build it, that it is used and nourished it will be a road, a destination for rest of the life of the man. And this is what we do. We allow the systems to be made by man, we teach man, enlighten man, (:28). and then as it is made by man, all of you come in, and you sit down. Just think what you've done in past few weeks, and past couple of days, you've come to see the marvels of achievement of the man.

Before you went to watch the skies if the Wright Brothers send their information, that you could see something in the sky. Now you have to see and feel this flight of the Soul of the Man (STM) through the systems, which is made by the man. You cannot see anything flying, but you can see the flight of fancy, soul of yourself. The change is fundamental.

This time we bought the change, that every man has the opportunity to achieve that goal, to become the captain of their own soul. As I said, nobody can decide. When you sit in this flights room, and you watch, and you see, and you ask for people to do things, you'll see in sincerity who is the true lover. I watched many couples and I can tell you, who was really in love with who. And who is in there because he has to be. There's nothing hidden when you sit, when you stand on my side of the system.

Remember, when we ran the tests in the Inzano, I told you many times, I watched my own murderer lying to me. The man who planned to carry out the murder. I just needed to ask the question ?? in the system and their soul showed. We see the same thing in these systems. Nothing has changed between systems in the Inzano, and in Linz. (:30). But this time it's more sophisticated. It's made much more elaborate, but in a way, much simpler.

We see the lies between the couples, we see what people lie to us when they're in the system. We see who really loves who. And in what essence ?? We watched the most beautiful love relationship between the two girls you watched, coming and explaining. That love is so pure, that man wishes for it. Even though they are 2 girls, two beautiful women. And then we watched the couples who've been together for 40 years, and ?? the distances to Moon to Earth ?? But they've been together for 40 years.

We need to understand man cannot lie, through the source of ?? ?? And we see the changes. Hopefully, in the coming week or so, we will come to the Keshe Foundation in

a very different way. We prepared the whole of the humanity for the change, what is to come, and how we can accept the change.

We've seen in the teachings of the Tuesday, the Knowledge Seekers collectively add to promote the Soul of the World Leader (WL). One in defending the faith, and one in trying to be aggressive with their faith. We saw Putin defending the Russian church, and we saw Pope, trying to be as it is, stealing and thieving and lying is the job of the Vatican. We need to sit and watch and see how these two world leaders in the coming days and weeks will change. (:32). If you as Knowledge Seekers (KS) truly worked with it, have managed to them.

As I said, last week, we had one Dutch lady who did not tell us in the teaching, in the testing, that the picture given to her on the mobile phone, she thought it will be Bill Gates, or somebody else on the Thursday, on the when Wednesday test, or the Tuesday test. But in the German teaching last Friday, she said she saw the figure of a Middle eastern Arab. In fact, the picture, which was on the seat, she elevated, is one of the most notorious murderers in the state of, nation of Iran. She felt the pain, and then she could elevate. In the beauty of it, we brought ?? parallel flag of Iran in the Linz Center down, until we know the state of truth-ness in back in the state of Iran.

And with it, we have seen within days, the change, and the talk within the administration, compromises are on the table. But she wished for peace. She wished for elevation. Elevation is for them to realize the murders they carried out.

In so many ways, what we saw with the elevation of the soul of one man, which ?? and according to the government, he is the main key in the murdering of the majority of the Iranians on the street, did not come by sentencing him to Den Haag, or the rest. He was served ?? ??? sentenced ?? given by a very old lady from Dutchman. The home of ?? (:34).

You have to understand the power you have, the ability you have gained through the elevation of the soul of ?? man. Sooner or later, you have no choice. And then you are. you cannot abuse, because in abusing, you abuse yourself. In trying to be aggressive, trying to gain something through what is not the correct way of the foundation of the life of the man. You'll be the one who will be losing, not gaining.

As I always say with the Rick's magnets, the one in the center is the Creator, and the wars you can create, the more you be pushed to the outer edges of the ?? ?? There is a ?? is very simple. When you plan the wrong way, you release the wrong direction, and you move ?? out ?? The whole purpose of the Creation is servitude and nothing else. It doesn't matter how you look at it. Welcome to my beauty ?? I hope you enjoy it.

In the test of this week, and in what is to come, you will see a new evolution in science. You will see a knowledge, which the man accepts, in the gradual introduction of past few years, that is our knowledge, it belongs to us. It is part of what we need to do, and what we have to do.

Just because we learn the knowledge, and we can make the system, does not mean that we stop working. Actually now, we have to work much harder to change the mistakes of the past. And man has made mistakes for billions of years and million years on this planet. (:36). And now it's time for him to correct all those mistakes of the past. And then man will be busy for a few more billion years to correct the past time.

It is not our work to punish. It's our work to elevate, as you've seen it yesterday and day before. We went to the meeting of Rick's teaching yesterday without any notice, that they were not people there preset to come, to be. They were there the Knowledge Seekers, 70 - 80 of them plus. On one channel, which we always use for our posts, Knowledge Seekers, and we saw the change, we saw the difference, we saw what it came. How some souls are loved by some, and how some souls are elevated by some. And how man puts himself forward to be ?? me. When man should be the last one in the queue. Let it be.

We observe the emotion of the knowledge, the transfer of the technology of the soul, not mechanical systems, which are made. In a way you went to the churches to find your soul, and pray to the temples and whatever name you believe in, to find elevation of your soul. Now, you have systems which can do that. You cannot come in to steal, you cannot do this to promote yourself, and you're not the gauge, "oh, I was this size, and now I am this size, because the next second, you can be "no size."

Mankind will learn how to use these systems. (:38). Our team is edging to the final stages. We still have a long way to go to complete. But the interim system, which is coming up and you will see the new 4 systems, which is come into the exhibition center in the coming weeks is another revolution to the whole technology.

To you it might not look like anything, but it's literally a donkey work, on the one we have here, to a Rolls Royce and a rocket technology to what is to come. Even our own people who have produced it, have not realized what they are in for.

We are transmitting between the physicality to the dimension of the fluid plasma, and in a very easy way. You will see for the first time the plasma power generators will come into operation. Not to produce electricity, but to produce the currents of the plasma, the plasma level, which man has not even understood. You're still busy with trapping your CERN, and Tokomak. You have not even understood, you're going the wrong way up the road.

There's so many directions, and so many understandings, man has made a fundamental mistake in understanding the process of the creation of magnetic fields. Instead of releasing to show its power, they trap it, and they squeeze it, to get power out of it. This is where the whole knowledge has gone wrong. The whole process of understanding has gone wrong.

As I always said, I remember in Barletta, the Knowledge Seekers from Spain was sitting in the front row with his wife, squeezing his eyes and body trying to move the item, the

object in front of him. I said boy you have not learned. Sit back, you relax, (:40). and you just s, "it would be nice to see you move, if it is your pleasure, to please him ?? You will see the object to move.

You to show, to see the beauty of the flight of a butterfly, you have to let it fly. It will not show its beauty, it's locked up together and sits. This is where the man has not understood the knowledge of the beauty of the Creation. When you let the soul go, it shows its beauty. Not when is trapped ??.

This is why in the EU you come in, we keep on encouraging you, go, go. It's like the mother bird having a little chick on top of the high tree, and encouraging the little chick to, take the flight, take the flight, nudging him to corner. Jump off, you'll be safe. This is what we are doing in the EU. We're just nudging you. The soul bird of the man, just try to go to that other unit, just jump. Just try to see if you can jump, and see if we can land safely on the other side.

The nest is ??, it's time to take the last flight, the last time you come back to the nest. Take the flight of the fancy to the Universal Community. My job is done, that little nudge, "just try to go to that unit." I leave it to you, whenever you're ready. Just to see, you've been the little bird, you all twist to the left. But, oh no, oh no, what happen if I fall. You need a few more days. Take the courage to jump. (:42). ?? in a few ??

One will take that flight, as we saw with the couple of this week. And there is much to see what would it be if I land there. Some of us like the Canadians come in with their passport in our pocket. And if we go, at least they know who we are, where we land. We are Canadians. It was beautiful to see our Canadian friends with their passport in their pocket. But they were not ready.

It is interesting, if you look at it. It's the same system, we set everything the same. The beautiful German couple, in each other's lap, hugged, to cuddle. And the others just wish, "I couldn't feel anything." Because you have not established, you have not learned, you have not understood, that it needs to be a true love for both sides to agree.

We've got to understand, that we are in that process. If you go back to one of the old Intros we had, when it says, the man took the wings and jumped off the bridges, and buildings, and mountains to see if he could fly. Some lost their lives because, they got it the wrong way. But this time there is no loss of life, because it's your soul, and you can be brought back in. But you learned, the mankind will learn to be kind, (:44). mankind will understand to be safe. Mankind will become the beauty of the light of the community in the universes, and not just on earth. But it's mankind who has to learn. The race of the man has gone through the harsh destruction, destroying and being proud to do so. Then blaming the others for it, that what I'm doing is for your sake.

As I said to the Iranian leadership in the past few days, let people decide. We took weeks ago the love of us, from the clergy of Iran, and within weeks we saw what happened. Go back to my teaching, I said, "I have disconnected from all Iranian administration, because

of the injustices." Within a few weeks we have seen, and they will not be there very soon the way it is. They might stay, keep a turban, in the mosques. But the power of the Soul of the Man has been released. We don't take part in politics, but we dictate the Soul of the Man. They cannot find enemies within, because the only enemy is within themselves.

In the coming days, in the coming weeks, in the coming months, we'll see the same kind of revolution across Iran.

In the coming weeks and months, we will see the establishment of what we call, peace, and how things will go, (:46). and how things will take shape, and how we will see the transformation and transportation of the Soul of the Man.

You'll see how Knowledge Seekers gradually start testing. What we did yesterday, with Rick and many of you online, many of you go and listen to it, it'll be listened in the future. We started to show you to be there, to be part of, to be your soul, in how you need to come in. In a way, we show you the theory and everything else in this teaching. And part of what we do the workshops with Rick, brings you to sit and test the reality, and practicality.

In a way, with two arms of the teaching and testing with Ricks teachings, and what we do on Thursdays gradually we'll come together. We see we don't need Blueprint Days. Wednesday's is where we test for how far humanity has gone across this planet. There were people from 20 - 30 different nations and nationalities, races and creeds, in past two days on the Internet, on Wednesday and much more on Thursday, on Tuesday. In a way, the teaching has been for One Citizen, One Planet, One Nation.

This will go through in a different way. We have brought in, we will announce in the coming hours, the establishment of the new organization, (:48). which allows the understanding of the correct conduct of the man through the souls for his knowledge, technology and science. In a way, you cannot cheat anymore.

In a way, you don't need the patents anymore. In a way, you're responsible for what you do in the correct conduct of your life. Then we'll see what will be the next move. We'll see how the humanity will change. In the coming weeks, as we go for transmutation flight systems and transmutation systems in the, what we call, Linz Center, many of you, many of you will come to be, to see, to be at.

As I said to the Knowledge Seekers yesterday in the flight zone, Keshe Foundation will ask the government of Austria to point, what we call, an immigration officer in the Keshe Foundation Linz Center in the coming days. The same will be the first immigration officers in United States, as the first man to fly in will be an American. They have to stamp his passport that he left the nation. When he comes here and flies back with us or with public transport, he can be endorsed, that he has entered his own territory. All these things ??.

We are ready to go to that step. I have already discussed with our team in Keshe Foundation to start the work with the Austrian government, to make the center an international, what we call, arriving center. We cannot start the transmutation, we cannot start the mobile system unless we have the full support of Austrian immigration officers within the center. (:50). When you land, and they confirm they've seen you landing, they can endorse your passport, that you still are not here as an illegal immigrant.

This is the next step of the work you will see in the coming hours, in the coming weeks, and days as we go along. In a different way without you knowing, we tested this yesterday with the Knowledge Seekers within the system, and with the Knowledge Seekers in Rick's workshop without you knowing what ?? ?? we monitored the background, which souls has arrived in the center, and who has already, with the pure wishes arrived.

We received two soul within the center. One was Jalal. I hugged him ?? and thanked him. And one more Knowledge Seeker arrived, which is Rick. He arrived with us, in a very short time. It was easy, as we noticed.

Now, you have to learn how to manifest yourself when you arrive, how you leave the life of physicality behind. If I would have accepted you in the system, I have to explain to the immigration officers, I have a body ?? but I still cannot send back ?? (:52).

The process is literally as it is. You don't need huge instruments and machinery to transmute the STM. You can do it within the structure of your physicality. The most important part of our work is not to create magic, it's to create a science, and from it a technology that cannot be questioned. It has to be in parallel with the full understanding of the Totality of the humanity, not just for a few individuals, that we create again the priesthood, the lies and the cheats of the past, "we are the few who has access to it."

It has to be accessible by the dog, the man, the cat, the fish, monkey and the rest. Elevation of the soul has to be in Totality, not a ??, not an elite that the man become the king of the animals. As we destroy the kingship within the man, we destroy the kingship within the structure of this planet.

We do it by ourselves and through that we understand the mistakes of the past. We come to understand the future of the mankind. We come to be part of understanding of Totality of what we can do. (:54). One cannot overrun the others, one cannot override the others. It's a condition and it's accommodating.

In the yesterday's test we clearly indicated it, and it was tested for that reason. In a way it became much, much easier to be. We asked the Knowledge Seekers in the flight room to choose someone to come to Linz. They've chose one person. Rick's team in the workshop, we had a woman volunteer. Because I knew who they chose, I said to them, no, you cannot it's got to be a man. But the soul of the woman has already moved on, because on the receiving unit, when we had two people, they both felt a woman with

black hair. The lady is a Spanish, she's black hair ?? . But that's the emotion, on the receiving unit, the two received.

I think they talked about it, maybe in the interview afterwards. Which means we cannot override, we can receive it, and man cannot interfere with the truth, the one who wants to give. The giver is always a giver. Then if we want to receive. Because I'm the receiver, on the sending side of the unit, nothing else ?? more. These little things continuously confirms how the systems are set.

As I explained to the Knowledge Seekers when they come out, to most of them, (:56). how the system works, what it is, the structure inside the room is explained slowly, slowly. At the beginning we were very conservative. Now we explain a lot of things to the Knowledge Seekers, they understand, because from now on they are part of the system, they are part of the structure to change for themselves.

As I said, your life starts, the true life of the soul, starts the minute you leave. Not when you leave, you end. Many of you will practice, many of you will try to see if you can do. But don't forget, this is an experiment. You have to learn more, and more, and be persistent to understand your soul, not somebody else's.

In a way, we give you the soul of the system, we give you the soul of the knowledge of the man and you just try to go. We've seen many strange things, but in a way, in line. We've seen Knowledge Seekers who come in that, I have to be in control, I have to understand, and they go empty handed in the knowledge of the physicality, but the soul has already reached the elevation.

We've seen people who come with aggression, and they are there to be, I came here to fly, you fly me. But sorry sir, this is the flight of the souls, the physicality has no room. You abuse enough outside, you think it is your right to abuse when inside, ?? we are in your soul. Your soul will not allow it.

In a way, as I explained once, it cannot be any more hit and run accidents. Because when you hit, you will have to stay there and sort it out. (:58). Then you find out, I don't want to be in any hit job. And this is how the man will change. You cannot run away from what you set up. But you are there to see why, you have set up. Why am I here.

I always said, I'm the judge, the executor, and watch what happens. But the judge and the executor as a watcher, not as a doer, as a judge and the executor (executioner). I watched how the people who misconducted, and how the people did wrong, then claiming to be perfect, then claiming somebody else is mistaken, then claiming I didn't do anything, all played back for themselves to balance their books with their souls. The process is very simple.

The time of hiding behind the curtain is gone. Because there is no curtain to hide except of your own ignorance. Ignorance of not knowing everything is on display, and can be played and it is there to be. We work to develop a technology, that can prove the science,

that there is no mysticism. There is no more those who were in the temple, those who were privileged to be made the temple, and then they became the abusers.

The technology will be displayed in front of thousands, tens of thousands of people, hundreds of thousands of people in the past week. It will become a cornerstone for billions of people to watch to learn. (1:00).

Yesterday, the day before session, was not there just to prove the technology. But was there for those of you who became Satellites, to accept the first position of ?? you, before you knowing it. The spread of the knowledge.

If we come to you with a preset mind, then you set your mind to do so. When become the way we come yesterday and the day before, those of you who accept the position of Satellite have already started spreading the knowledge through your soul. Your first test was done without you knowing it.

In a way, we triggered the engine, we just wanted to see how it will go. This is why we ask as many of you to become Satellites Many of you to become, that are there to support, to spread. You think when you become a Satellite Knowledge Seekers, is what you give to other Knowledge Seekers, or citizens of your nation or your area. The soul of those who became Satellites, because it's chosen by their soul and transmuted through physicality. It's what I call, the psychosomatic condition of life. Those souls who accept that position, will do the same across.

When you have a satellite, the satellite does not distinguish between an Apple mobile phone, Samsung, or another operator, or another company, it's just, it's job is to receive and equally distribute and reach, (1:02). that if an Apple calls it can transfer it to a Samsung, and it's not for Apple exclusively.

Those of you who became the Satellite, and your soul chose you and you're still adding to your numbers, of that beauty, your soul is not beauty in the elevation of the STM only. The ?? area is ?? what you've been trained, so is the cat and the fish, so the tree, and so the stone. Now you understand why we asked for Satellites.

It's very much as I said if you listened, as we asked for Universal Council members, it's your Soul that brings you to that position. Don't wish that, "I want to become a Satellite, " if the soul is not ready for it. Those who became Satellite understood, because there's another dimension to it. They become the satellite even for those who are from not this planet, but they are here as a man. But they understand through the soul level understanding. None of them ever listens to Knowledge Seekers teachings.

You become like that, in the ?? head of Islamic ?? the speaker on top, shouts for Islam, and the rest of the village and district know, your soul is in that. Shouts, and everybody hears. And he shouts Islam on top of the, (1:04). what we call, Mandan ??, the Jew, the Christian, the Muslim, Zoroastrians, the dog, the cat, all hear the same voice, and it depends which one names that voice, or what it means to them. For the Muslim it's time

of devotion to go to the mosque, it's a time to pray to creator. For the Jew, oh God, not them again, at least we have the last one a few hours. And for the Christians is another meaning, and the other one, and the dog says, "this noise again."

It is understanding the reason why you became Satellites. And many will become Satellites. The voice, the Soul of the Man, and as I said to the Knowledge Seekers, if we send it through here, you're in another position. And like a wind, this will go across, one to another.

The process of the testing this week was done specifically to, in a way, to awaken the STM across this planet. And it's woken up, that we could feed it today, as I said, two hours before the teaching. Did you feel anything? Or it was just another day? The soul has received it, but the physicality is still in a dream world. (1:06).

In the next few weeks, the Keshe Foundation will go in depth, of the development of the technologies that we become immediately, what we call, ready for transmutation and transportation. One of the targets of the Keshe Foundation in a very first trials will be, manifestation of the creatures from outside the planet, that we start familiarizing you with what it is, how it is, and how it looks, and how it will be.

It will not be any more just trying to get you from here to there, it's to familiarize the mankind that when you start the, what we call, planetary system flights in January, February, you're already familiar with people you might see in the space, the creatures of the Creator. You don't get on the line to the soul of the mother, mom, they have 20 legs, 15 eyes. Have you looked in the mirror? You look the same, because you're in the same environment. Mom, I have 15 eyes and 20 legs. Mom says, don't come back home, you think I am crazy. I send you a picture, this is me, but on planet Zeus.

We have teach you, to train you to become, to understand what is to come. Then man is ready to spread the knowledge of Mitra in a correct way across the universe, to the children. As I always said, I was born a Zoroastrian, I will die a Zoroastrian, because the beginning and the end is the same. (1:08). Man has brought different names on it, but Mitra always said, Do Good, ... This is the principal we created the cycle of, what we call, life on this planet. Man chose the physicality. Now we have brought, what we call, correction to, not prison, but the freedom.

Thank you very much for today, and I hope you learned that today's teaching was this weeks teachings, this week workshop with Rick, this week's live presentation that you are part of it. In monitor how the bells in Vatican will ring, and how what we hear from Moscow. You still need to elevate the other two, and some worked on Charles yesterday.

But when you handle with, or you work with residents of a house, you have to speak with the owner of the house, what will happen to his residency. This is why we brought in the Italian Prime Minister, the owner of the house and is, what I call, "rented tenants lease has come up in Vatican. It's time to give back to the nation the property, and start a new life, for those who understand what this means. The lease of the Vatican was not renewed

this time. Now, it will go back to the owners. (1:10). We take the stones of Vatican back to the Coliseum. And you do it as Italians, not as ?? ???. But this time it will not be animals and men killing each other, but it'll be what I call, the arena for elevation of the STM to see the Universe and the Universal Community. Not as animals, but as equal souls. Rick take us to a break and we'll come back and carry on with the second part of the teachings.

<<< BREAK >>> 454 KSW October 13, 2022 (1:19).

K- Thank you very much. I hope we learned a lot from the first session, or actually continuation of all teaching of this week, as a team, as a Knowledge Seekers, and we learn more and more to come, as we have to. We got to accept that the man has moved forward. And there is no way to stop this process. As we say, the cat is out of the bag, and we're moving forward.

In the process of last week's workshops and teachings, and everything else, which went with it, (1:20). we have learnt a lot, and we're going to add to it, we are going to increase this knowledge. But as I said, there are a lot number of things which we have to, now knowing what is to come, to structure. You saw part of this structure, as we knew it's going to come, in the past years by simple things, like the launch of the, what we call, Keshe Coins. Soon you will realize what was the purpose of it.

On other hand, now one of the biggest problems with man has been the pride, and being proud in the knowledge, in the skill, and everything else which is left, that he has to be his. For this we have created doers, cheaters, and thieves and the rest of it, and we brought it under the condition of what we call, the patent. A man, only pays if you put something in a patent. A man only accepts if it is in patents. As the Saudis said a long time ago to the Americans, knowledge is gift of God, and there is no patent to it. So, Saudi Arabia is one of the few countries who does not respect patents, at all, and it's a house of God.

In so many ways, man has to respect another man's knowledge, man has to respect another man's skill and work, and with it, man will come to understand what it means. You don't need to hide, and copy, and steal, and go. As we've seen with many Knowledge Seekers. We put this out deliberately as an open patent, (1:22). we put it openly to the Knowledge Seekers and see how they respond. Now, today we will show you where you are not succeeding, and where you trapped yourself into.

If you remember we told you, whatever you have, whatever you do, don't forget those who put in the Foundation, and if you learn from others, that they developed, for them to put. Keshe Foundation today introduces a new criteria, which is to do with the soul.

If you sold so many goods, and you made so many things from the Keshe Foundation, and you sold it, and thank you very much I've got a new car, I pay the bills, and you didn't put anything back into the Foundation, you're a thief. Now it's the payment for it. Now you understand why some of you suffer with a lot of divorces around the Keshe Foundation. Because you stole from the soul of the Foundation. And we work in that level.

From now on patents has no meaning. But the respect and work within the, what I call, understanding of the soul of those who participate, is important. That's why we opened our patent.

But, hiddenly, we gave you the freedom to do and saw how much you lot abused it. From Germany, to, we've seen in other parts of the world. You keep on suffering with it, because you do it in physical life, and you think you cheated, "it's ours," you didn't put anything back. Then you find out you're still suffering, because the soul brings you psychosomatic punishment, as I call it, but in different way.

Today Keshe Foundation launches in a new Institute, (1:24). which is more or less universal. From now on, man will respect the intellectual rights. Man will respect the researchers for what they research and they develop, and man uses it. Man will respect the know-how, that another man has created and shared. Man will respect the skill, which means you have no knowledge, you have no patents, but with your skill you developed a new thing, that others can benefit by it. You can't patent it, but it is a source of your life. From now on man's respect artisans, those who through their art bring. It doesn't matter poet, painter, glassmaking, or whatever. For that reason, the Keshe Foundation today will set up the basis for, what we call, intellectual research, know-how skills, artisans rights. This is the new pattern of work. But this time it's done through the STM.

For that reason, we set up an organization, and Keshe Foundation will push with this through in a coming time, what we call, IRKSAR, which is in the initials for the Intellectual Research Know-how a Skill and Artist. No one is left out. Even a poet, even a writer is an artist. We'll push with this institute forward, what we call, IRKSAR. We'll move it forward with no condition. (1:26). We'll set up a platform on the Internet that you enter your skill, you enter your artwork, you enter your intellectual, you enter the research you're doing, without the fear that somebody else might take it, and you get no benefit.

But this become the right for those who use it to in a way, if they benefit by it, use it, they put back into the researchers, the people with the intellectuals, the people who brought the know-how. We don't put any limit. But there is a minimum limitation of, let's say about 1 to 3%, if you make something, that you can put back to the artisans and you use

his work, to add your work to it. In a way you cannot steal anymore, because your soul is aware of your stealing.

Some of you will put back in, as a lot of Knowledge Seekers did 9% and 19%, and when we came to be ?? question, we give to the Foundation. How many of you lasted? How many of you are still struggling day by day? Because you stole. Now we make it free, that there is no stealing, it's your, and you understand it, and you follow it. It took a bit from the Keshe Foundation, you saw that another Knowledge Seekers and added his knowledge, and became something else, and you used it to make something, that you make your living out of it, both the Foundation and the man who added to it, has to be looked after, through any means possible. Then there is no one to watch, there is no court to do.

Soon, this will become the patterns of the international corporations, you will see what we put in plan. We do not go out that way. But you will see gradually we'll take over the patents, because patents are not respected. Because it's a matter state condition of ?? force. (1:28). But with this new structure, every soul will be aware of his own conduct and to look after. It's your job, it's the job of your soul to understand. You haven't crossed somebody else's path by thinking, "oh, I'm doing it behind the doors, now I sell a few pieces here and there, nothing to do with me." Now you understand why you're still struggling. Have you seen the thief enjoying the theft fully? There's always a ??.

So today we launched this institute and structure. Soon Keshe Foundation will support computer centers, for everyone to enter their rights of the intellect, the research, know-how. And without expectation for return, but those who use it will return to it. Because, put it this way, now you know the punishment is bigger than the prison and maybe a court case. The punishment of your own, not to elevate. And this takes away a lot of the stoppage and blockage in the world of development of the man. Not hiding behind papers. But being open, the way we did, we set the scene from the beginning. We opened our patents, we opened the knowledge, we shared the knowledge, even today's part of that knowledge sharing. With the hope, that we will see what will bring to the others, with their knowledge they can add to it, and it goes back.

We saw a few weeks ago, one of our beautiful Knowledge Seekers in France brought what he did over two or three years, with the wines and vineyards. This week he wrote to me, the first harvest is ready, can I send you a bottle? (1:30). I said to him, asked him, if the Keshe Foundation can support, and promote his work across Keshe Foundation network. That we are not the wine merchants, but we want to show the technology can be used for the different applications.

Rick, if you can go on to the Keshe Foundation store. For the first time, we have put out an artisan sculpture. It has gone on the store of Keshe Foundation. You can see it. As I said, we start supporting those who use the technology. It's the first time we have promoted, what we call, an artisan work, a sculpture. We'll see many of these, the same as what we did with the paintings. We brought in the paintings, it has been a huge success. That's the one, exactly on the right. This is called, as you see it, it's done by the

beautiful Italian artist. If you are an artisan, it's your right, we are here to promote. The same, there are the new pictures, which is coming, and there are new pictures which are coming from different artisans, different painters, different things that will go across. This is what we are here to do.

We are here to promote different application of the technology, in different ways, how the fields of this, what we call, artwork will spread around you in your home. You have this in the center table, and you have two pictures on the side, or whatever. You can see the whole room is balanced and distributed. (1:32). But it's not the object, it's showing application of the object, the technology, what it can do, what will bring. The same with the new paintings, the new paints are getting more beautiful and more sophisticated as the artisans are sharing more and more with us. We'll see how things will take shape. You make glassware, what happens to it. You make pottery as you're seeing, we are there to promote.

Everything goes back to its origin. You bring a new technology, you will see the use of the technology. It's time to show different aspects and developments of application of the technology. Many of these artworks you see is already sold. With literally, by the time we get the artwork, receive it from the artists to us, by it's own, it's already mainly sold out. If you're an artist, if you are an artisan, if you are even a writer, we look at your work. If it has to do with our technology we promote it. Because everything else which is outside, sooner or later somehow will find its way to the application of the plasma, and that will bring the change. So we stay, what we call, not ahead of time, but in time and in line with Knowledge Seekers to spread the knowledge. (1:34). Enjoy it.

If you have a skill, share it with us. And when we set up the new website for you to put in, the skill you have developed and what you can do, be it anything, in how it can help, and other ones come and read it. Then they can participate and sharing with you, and spreading the knowledge. Thank you very much Rick. There are some gorgeous paintings which is coming in past two days. And they're amazing. Go to the store and look at it, because they're trying to keep it updated. As I said, we even have one of our Knowledge Seekers who commissions paintings, for him to be done with Gans's, and now it's sent away, the first set. You can commission your own work, what you want, and the artist around the world will paint it for you.

Any questions, we can answer?

R: Okay, how would artists get in touch with the Keshe Foundation in order to do works like this, or they have their specialty? What would be the best forms to use? Just email?

K- Just go, what we call, the Keshe Foundation different ways and contact us. The usual ways.

R: The info@keshe.foundation, or any of the usual places I guess.

K- Yes, because now we have the manpower in the background to look after the most of the emails, and how we respond, how we expand it.

Very soon, hopefully, very, very soon if things go the way we like, (1:36). I mean soon with us it's like six months a year, not tomorrow, Keshe Foundation will open its own, what we call it, IT center. We are in the process of, what we call it, working on it,. In wonderful working on it, it's been done for some time, where we have our own servers, centers zones, what you call it, very much like Microsoft center of the Keshe Foundation, everything is under one roof. The designers, the what we call, the programmers, everybody under one roof. This has been quite ?? for a few months, and hopefully once we can complete it, the Internet Center will be high speeds, everything is in it, all the servers, everything is part of it, it comes with all the facilities in the building. If we manage to conclude that, a lot of things will be done by the Keshe Foundation directly. Where at the moment we rely on a lot of people in different parts of the world to do it. We centralize it with the computer center. Then we go to the next steps of how to take the other steps.

Q: .. There's speculation about who seeded humanity on Earth, the Anunnaki and evidence of giants depicted on Sumerian tablets. Mr. Keshe, who seeded humanity?

K- The Earth itself, the condition of it. That few degree angle (tilt) in, what we call, axis of the Earth, creating the four seasons, (1:38). created a combination of fields, interaction, production, and these fields somehow, through the balance common denominator, interact with each other.

Once the condition was created, the water, the oxygen, the hydrogen and the rest of it, then what came in it, is a different story. Life of a planet, life of a structure has sequences. And scientists have not understood the sequence.

You cannot produce Gans's if you don't get the plates, if you don't get the box, if you don't get the water, if you don't get the salt. You can't have Gans's if you buy the plates, buy the salt, and get the water, but you have no container. You can't have Gans's if you have the container, you have the water, but you have no salt. So, life is the same. It has to be, and it comes in sequences. When one is done, then the condition of the position creates the next one. It doesn't matter where you are in the universe.

The rays of the Sun lead to the Creation of amalgamation of some of, its own back to itself, absorption of whatever to itself, led to Creation of the Earth, as a matter pieces of plasmas. Interaction of the fields created the gravity, interaction of the gravity and M fields, receiving and giving, created the dimension of the planet. In dimension (D) of the planet, now you have fields which is a loose bullet in the fields of the, (1:40). what we call, Solar System. You've got, as I call, a knife on the edge of a fast rotating, spin stone, it creates sparks. Those sparks are different around, not all the same, big one, long one, short one, oxygen, hydrogen, whatever. Now you have a container, now you brought the water in, you brought the next condition.

In that process of the knife, running against the rotating wheel, you created other things, you call it, the Zinc, and Copper and the rest, and the salt and whatever. Then in interaction with each other within the oceans, the right temperature and condition, you

cannot produce Gans's sometimes in minus 50 degrees, even though they're produced. You have to have the right condition, then you create the right Gans. If you can amalgamate those Gans's, as you've seen, you create rotation. Then you create some of your life. This is exactly what happened on Earth.

But when you have the Earth, you created the salt, you create the water, you created even the sand and the soil. If there is a matching structure across the Universe, which can fit to this, can survive in this, it can replicate the ?? self within it. Go back to the teaching of years ago, when I spoke about the shoe crab (horseshoe crab).

Origin of the life of the physicality of the Man is the condition of the man. The origin of this Earth. What happened with the STM in interaction with another physical dimension, which was matching the condition of the Earth, if the knowledge is transformed and transmuted to the Soul of the Man or the physicality of the man? That's another condition. (1:42).

The race of the man we see today is not the only one. Initially, when the Earth was created and the condition came right, there were thousands of "men similar thing" (species of Man). The one which was a stronger, started dominating, and that is what we see as, "man of today." Even if domination was spreading, he spread himself into different colors and races.

So, what's the origin of the man? The origin of the man is on Earth, it's from interactions of its own fields. But once you create a condition, the other's which come in, and they can live within it. That's why 30% of the population of this planet is from outside, not from here, because they can live in this condition. But they're not from Earth. As I always said, we have a beautiful Farsi words, it says, "whoever has a mustache is not your uncle." Because all the Iranians have mustache, and you have a lot of uncles, god help your grandpa and your father.

So, we have to understand, that life is not exclusivity, but life is created out of the condition of exclusivity of the interaction of fields of this planet. So, where did the man come from? From Earth. Where did the man, will go? Again, from Earth, because he's got the fingerprint of the soul of the Earth. Up to now you looked at, if you go to China you look Chinese, if you went to South America you look South American, if you went to the North Pole you became something else. (1:44). But you've got to understand the soul common denominator, the soul of all ?? are the same.

But the Creation is subject to the soul of the planet. So, we all have a fingerprint of the soul of this planet within our soul. We have a fingerprint of the Solar System within our soul. We have a fingerprint of our galaxy within our soul. We even have the fingerprint of this universe in our soul. When we go to the other universes, when they look at you, they say, "oh, this is from that universe in that galaxy, they're in there." That the fields you produce, you see the separation.

Just listen to what we said earlier on today. The lady saw the first light and then the second light leaving the body. She can distinguish between the STM, and STP, and her own physicality. It's the first time we get aware of it, where we can understand it. So, if you see that soul and the second soul. That Soul is the STM, and that soul is the STP of the condition of where the man comes from. Then you see the soul of the planet.

If you leave Earth in the point of death, you carry that fingerprint with you. If you position as a new soul, as a new star, it's in another galaxy, or another universe, you carry all the fingerprints of where you came, through the field interactions.

Now you were doing the tracing of the man came. If you go to United Nation's website or another site, that they trace your ancestors, where you came, then if you've done it, he came from Europe, he came to Asia, you were black man somewhere else.

It's the same way, now you know in the dimension of the Soul, through the strength, and color, (1:46). and the interaction of the fields you're attracted back to Earth, from which galaxy, from which universe, from the rest of it.

It's just because we didn't have the knowledge we were not aware of it. Now we are aware of it, we understand. So, life of the man, man from Earth started from Earth. Man from other parts of the universe, being a man, we accept him as a man. But in their souls in the dimension of physicality, we can soon know where they are from.

There is a beautiful thing with the new system getting built. Maybe for the first time we can disclose it. You know we've said before, with the new system we can create the condition of Earth in one, and the condition of, let's say Moon in the other system. But at the same time, if we bring the man, ... creatures of the Creator in one of the systems, they bring with them the environment they live (?? environment they are from). It's not what we control anymore. So, we see their environment, we see what they're made of and how they are put (together). Then we'll see their conversion back into human body.

A lot of, a lot of travelers of the universe are in the black skin. It must be a surprise and shocked, but in time you will see it. Because when they came, they came to the origin, original source of Creation of life on this planet, and not on its mutation (other races are the mutation of blacks). (1:48). Go back to some of the teachings of the past three, four or five years ago. I explained this when I was sitting in a cafe in Ghana, when I saw them and they tried to hide behind the lift. We see the original races, not the mutation of races. Then you understand, life originated on this planet according to environment of this planet.

Any other question?

Q: Dean .. We have in micro and macro. When the process starts for this change, this condition. So, we're asking for the elevation of the souls and we're asking for peace on the planet. So, when the Satellite Souls take position around the planet, does this process

start in the moment? Is it a generational thing? (1:50). Is it a gradual process, or is in an instant, in a moment?

K- Everything with our work is instant. Because you don't take your flight to get somewhere, you already entered it. You're always there, you see people coming out of the flight zone. They don't say they saw going, they just arrive at a position. It's instantaneous. Because you live in the dimension, you travel in the dimension of the fields of the universe. Life of the man is too short. What is to you a hundred years is a microsecond to another creature. So, it's instantaneous.

Q: To that creature though, Mr. Keshe, you have that many, in many life forms on the planet where they, you know, they have a life cycle that is very short. However, that's what they know. So they're content with that, they're happy with that situation, because they know no other.

K- Yep.

Q: That is a situation they come to understand, and then to move them from that position. So when we have a belief, we have an environment, that we've become conditioned to, how does that condition become, like you've been doing for a long time through the teachings, how does that condition expand out?

K- It doesn't expand out. This is what I call, the "schizophrenic condition of the man." We think one is hidden, the other ones cannot see. (1:52). When we leave the physicality, because we ignored all the time the energy side, which we call the Soul, it doesn't mean that Soul has finished. This is the beauty about understanding the full truth about life of the man.

You go from one condition into another, but in both conditions, you have the capability of the mutation within yourself. We call it psychosomatic. What we do psychologically somatically, physically appears. But we never understood there is a somatic cycle. What we do psychologically effect us. We understand it, we talk about it, but we always consider to stop at the brain level emotion. But we haven't understood, this field goes further to the soul. That's where it effects your life.

When you have a psychosomatic condition, you have to see it as the body of the man. So, a somatic condition has created that psychological condition, that leads to another somatic condition. This is the part we never wanted to understand, even though we are fully aware of it. (1:54). Now we are responsible for that somatic, because it's actually somatic, psycho, Soul, and then back to somatic, psycho, or psychosomatic.

Q: .. So, does the universe exist? Or is it just within us? Is there actually outside of us?

K- We live within it, and it lives within us.

Q: So, trying to move to this universal position, you always talk about going, leaving the planet. If it's within us, we don't go anywhere?

K- In a way, yes, in a way, no. Because there's no time, place and position. That's what we call it, "zero time." How can it exist, when it doesn't exist?

Q: How does theology explain this? How do you get around that ...

K- There is no theology, this is the facts of life in the dimension of motion of fields.

You've noticed in the flight zone. We get people going in and coming back with nothing (happened). We put them back into the system again, but this time we tell them what to do, and they come back and they enjoy it more than any other time. They create that time to enjoy. Then they deny themselves that time to exist. (1:56).

Life even in the physical condition is a mirage. But mirage of the fields of the universe, not mirage of the vision of the man. The sooner man finds out, the sooner he find out it's, we are the beginning and we are the end, and there is no time between the one and the other.

It's very similar to what we call, one year on planet Earth. One year for us is 365 days of rotating. In the same Solar System we have huge planets, which will take them, their one year, as one year of us, much longer. Now you try to fit in one year of the man into one year of the other planet. What is the cycle of one year for Saturn, Rick can you find out? Now look at this, this will explain. Now scale it up, one year in our Solar System in the galaxy, and scale it up one year, our galaxy in the universe. (1:58). And in the scale of one year of our universe in the Unicose.

R: Saturn is 29 years of Earth years.

K- Earth years. So, if you lived nine years on this planet, you live nothing on Saturn. You didn't even move from your infancy. But in fact you existed 29 years in this dimension. When you're 60, you're only two years old in Saturn. But you're still in the same frame of time of the Solar System. Sun hasn't changed his position. So, when you go up, to scale it up, time for man at this time is zero. We are living in zero time in the dimension of the universe or in the Unicose, but we're so proud to live 60 years or 80 years. Time then doesn't exist.

Q: So, getting this message across Mr. Keshe, that in the physicality everybody enjoys that 60 - 80 years, whatever they have, that in the physicality. However, the eternal soul, that soul can be present in any moment, in any position, time in place?

K- Yeah, but you have to understand that cycle of one year on Earth in the physical dimension, and one year in the Universal dimension, which makes physicality zero. Is the same in the dimension of the Soul. (2:00). Soul does not age, but the physicality does.

Q: From the point of its creation?

K- From the point of its creation. That's why it says, "I made man in the image of myself." Because it's Me there as you see, as I am here.

You listen to people, you record them when they come out. They don't fly to go somewhere, they just go, and instantaneously are there. Yesterday we tested with the people with the chocolate and other things. Yesterday we asked people's soul to be, who wants to be, to go and to come.

It took instantaneously for. Actually Jalal arrived before Rick does. Jalal is in Northern Europe, Rick is in Canada. But they more or less arrived at the same time. This is the change we have to. Physicality takes time in the space of a physical time. The Soul takes place in the dimension of the magnetic field time of the universe.

This is why, if you understood in the past few years, we speak about the children of the STM, the children of Mitra. (2:02). Because now when you create the physicality out of the Soul, it is everlasting. It comes from the time of beginning to the end. This you haven't realize what it means. Knowledge Seekers just listen, but they don't fully comprehend what is involved, what is about to come.

When you create children in the dimension of physicality by interaction of the male and the female, a sperm and an egg, you create the dimension of the life on this planet. He has a lifespan, and he has a limitation to that lifespan. When you create the children of Mitra in the dimension of the Soul first, you are part of the life of the Creator. It never ends. It's the way He was created.

Q: Is it not the same though Mr. Keshe, that when you have a child in physicality you create the soul, so that soul is the same, is it not?

K- No. It's different. When you create a child with the physicality, he is a prisoner of physicality, the Soul. When you create the child in the dimension of the Soul, it's a freedom of the Soul, physicality to be accompanied with. Then you can take shape anywhere in the universe.

You take the man into the water, which he's not used to, he dies. You take his Soul into the water, it's still the same Soul as is in the air, in the water, anywhere in the Universe. This is what you Knowledge Seekers have not understood, what it means the children of Mitra. Everlasting life in the dimension of the Creator. (2:04).

And she is amongst us now. She has been born in that dimension. She was created in that dimension. Even though (she) has a physical manifestation.

This is what is to come. We give man the option of everlasting life in the Universal Community. Not when your time comes up in another universe, "opps, sorry, it was a flash of light." Because physical life was set on Earth and to 29 years was (finished). You

don't even take time to get the first breath and your life is over, if you travel in the dimension of physicality. Or we are on the way for billions of years as our scientists tell us. One hundred million light years, what a rubbish. One hundred million years of ignorance, not understanding the process of Creation.

Q: Is this why the Universal Community do not show themselves?

K- Partially. Do you go somewhere where there's a riot, mayhem and killing? Or you avoid it?

Q: Me personally, I avoid it.

K- Me personally, got involved in it to stop the fighting.

Q: Yeah, thank you Mr. Keshe.

K- It's not easy.

K- This is part of life, it is part of the understanding to bring the change, (2:06). to change man from dimension of physicality to dimension of the fields of the universe. The tests we've done this week in the center and last week has shown how beautifully correct the system has been made by our team in Linz.

When you hear, when we speak about the two people in the same chair, when we speak about the lovers in the back and the front and everything, but one lover hugging the other lover from the back and holding, because the soul of the woman, even so much smaller, is the supporter of the Soul of the Man in the front, which is huge. The size does not matter, the soul is much clearer. Then you understand these are not accidents, it shows the perfection we have made the system to create these conditions, because it was set to do it.

Q: Those systems Mr. Keshe, they're being produced by those beautiful souls, their soul is entwined, is given into the systems. So, are they enhancing in themselves and deeply connected to this? How does it effect the soul...

K- You and I see them, they are frequently in the center, putting.

When you go to a party, you take those which you enjoy to be in the party with. You don't go there, hopefully there's somebody. You go there, because some of the people you know they will be there, that it makes it enjoyable to be in that party. (2:08). The soul of those who you see with us, are the souls we know from the past, we just put them in different clothing. We've had many parties together before. So, when you see people around the Foundation, around the world do things, these are chosen souls, friends we know, when we came here with. That's why we can show it so smoothly, because we all know what we have to do.

Q: In this very moment Mr. Keshe is showing 11:11 on this watch, on this clock. Which we know time doesn't exist outside of this planet. However, as we engage in these fields that we interact with. In that moment, it was a 11:11. So yeah, thank you for that Mr. Keshe.

K- At least it wasn't 9:11.

Q: Sorry, say again, I didn't hear.

K- I said, at least it wasn't 9:11, it was 11:11. ...

Q: Yes, thank you. Mr. Keshe. Thank you for asking those questions. Can I ask one, quickly one more. So, within the center, within this core, within this interaction, and these Satellite Souls take, they are in position. Their Soul has brought them there. And the soul of the Universal Community, the soul of the Universal Council, the Earth Council, the Core Team, the soul of humanity, the soul of the religious leaders, the world leaders, the man on the street, the woman who nourishes, nourishes the whole of humanity. Is this the moment?

K- Of what?

Q: The change? (2:10).

K- The moment of the change started from the time when the first man was created. The purpose of the creation of the Earth even though you look at it, it's just accidental. When it was built, when it took structure, when Mitra fell in love with it, started that change.

You know when you have a beautiful partner, or you have a beautiful child, or you have a beautiful painting, you want to take it around to show it to everyone, and show its beauty, how beautiful she is, how beautiful she talks, everything to you is beautiful because you fell in love with it. This is what happened to Mitra. When the love of the Creator got in touch, became in interaction with the fields of the Earth. She took, she set out to show the beauty of this to every lover across the universe, even to her own lover, which is the Creator.

So, the change started from the time of the beginning, and not that it's now. This is part of the evolution of that change. There are many, many more changes to come to this planet, which this new change will bring.

I said to the couple yesterday, if you wish I can make you pregnant in this room, this instant. Putting you both in the systems, you can have a child, (2:12). if the wish is there. It's not the system is going to be developed, the system is already there, the knowledge is already there.

Q: So, two physical beings, or the soul of these beings go into the flight room. They interact and create another soul, this soul can then choose to be in physicality or to travel the universe or?

K- It's a decision of the three. Because the physicality of the mother and father on Earth will be here, but you take your child to different parks and different parts of the city, to different game places. So, then will do the soul of the mother, the child, and the father. Physicality could be here, but the soul of the child with the parents travel the span of the universe to see the beauty of the Creation.

Q: And that child when it matures, how does that position, when that soul meets another soul?

K- It has the freedom, it's the same, has the freedom. You see, you put a magnet on a table and then you put a copper, a zinc. You put water, you put potatoes and tomatoes, magnets doesn't get attracted to it. If you find a field, same field strength of another iron, which is magnetized, then it gets attracted to it. It's the same, it's no difference. But as we have shown, you can even magnetize a plastic and an orange, if you know how to handle it. (2:14).

Q: Sorry to interrupt. So you're saying that the souls will match up as well as the physicality's, and you can make a magnet for, as we know within the teachings, for anything. So, it's the same with the soul interaction...

K- Yeah, it is what happened. Mitra fell in love with the Earth, and Mitra, through the love and understanding of the love of the Creator, brought the Creator to see the beauty of what He has created. As I said before, not many places in universe has been visited by the Creator itself. Mankind one day will understand the privileges he has carried, and how he abused this privilege in the name of religions.

Q: And that balance has to come, for the souls that take this energy?

K- In a way, the soul balance is there, it's just the physicality to appreciate it, confirm it and live within it. Nothing else ..

Q: And this balance for everybody is in the physicality, and then further out when you expand out, when you become more than just the physicality?

K- More or less.

You don't see a black soul, you don't see a blue soul, you don't see an orange soul, the soul goes and shine, and the light it produces in the dimension of the observer becomes black, blue and white. (2:16). When you got a black light, or when you have a red light, all the traffic sees the red light they stop. In the dimension of the soul, the light could be black to me, yellow to you, red to the other, according to what I create. This is the difference between the dimension of physicality and dimension of fields, what we call the soul.

Go back, especially those of you who are in the medical side, and listen to the knowledge, to the sharing of the knowledge, which was done with the Dr. Elyia Kostova. Those works, if you understand it, are the cornerstone of the Creation. We had the privilege of Dr. Kostova with us in those days. With her support from the securities, and the others in the background trying to fill her up, with the knowledge she had, and everything else. To share some of the basic, fundamental knowledge of the Creation. We keep it to the doctors, or we kept it that way.

But those knowledge's for every part, every organ of the body of the man which was taught with Dr. Elyia Kostova, is the cornerstone of the Creation across the universe. But you have to understand it. What does the kidney means in the dimension of the emotion

and the STM? What does the heart means? (2:18). It was a beautiful, great pleasure to be able to teach in those times. If you understand it, it explains a lot of things, how even the universe is created, how is the shell of a galaxy is created, you call it, the skin of the man. Change the name. You call it, the kidney.

Look into the universal dimension. Why do we have certain galaxies working the other way? Certain part of the collection of galaxies work in different way, than the others. Extracting what the others don't need, you call it kidney. But when our scientists look at it, oh, this part of the universe, the galaxies and collection of galaxies are moving in different way. Tadam! What did you miss? Macro and Micro is the same. But where does that, what I call, extraction of the fields you receive come out of, which part of the universe? Or does it get poured out into Unicose?

It's all the same. We just are blind to see it. Correction, we have chosen to be blind to see it.

Q: Why do we do that, Mr. Keshe? Why do ...

K- Is it an ??, isn't it?

You and I are battling this situation for about few 2, 3, 4 months. I tell you just wait, when it's the right time. You jump, you get agitated. I said, it's just the time. (2:20). Because I always said, we are all there to be tested. There's a reason for that in the elevation of the soul.

The good news is, that is solved this morning. Then we'll see the new dimensions in the coming days. It is part of our life, but we chose to compartment it, and put in one compartment, this is this, this is this, but it's all the same.

Q: There are so many beautiful Knowledge Seekers. When people tap into, when they allow themselves to actually be touched by your, by your essence, by your teachings. It does touch the soul. And those teachings that you spoke about earlier on, though, when I was going through this awakening, or whatever it was that happened to me, those medical teachings, I delved into those and it did give me a lot of field strength, it gave me a lot of knowledge that I brought forward and then used within the, you know, becoming part of. They are beautiful teachings and the essence of them are so fundamental to humanity and our understanding of our own structure. Yeah, they are...

K- Depends how you look at it, how you understand it.

I was explaining this very recently in a different dimension. The "Tribe of Moses" created mayhem for mankind. Through the dimension of, its what I call, (2:22). greed. But the same tribe of Moses, being matured, has become the protectors of the Foundation. One day I will explain.

Q: That's intriguing what you just said there.

K- Very intriguing, very intriguing. One day I'll explain. The mayhem which came with us at the time of Moses, and in past centuries, now has become the guardians and protectors of the new change.

In a way, as I say, the soul of Moses is putting back right, what he did wrong. One day the Knowledge Seekers will understand. No one has protected, and brought, and supported, and what I call, even brought the Islamic world around the Keshe Foundation, than the children of Moses in the recent past. In a way, putting the wrongs of the past right, even through the world of Islam.

There are things we can't disclose, but long term, as you know, we open the books always. What you will see, I keep on telling you, it's about to come, and the changes will be so big. It's thanks to the blood of Moses and his children. And change they bring in the Islamic and the Christian world with them. (2:24). What they did wrong they're putting right, this putting right will change a lot of things for a lot of you. Soon you will understand. That's why both bloods were chosen to have the outcome. Very, very sooner than you think, you will become aware of it.

Q: I'm looking forward to in this moment, Mr. Keshe. The moment when all the souls really realize, regardless of the STP of the person. When the children of humanity really understand that what has been brought forward. Thank you, Mr. Keshe.

K- We shall see it in the coming time. ... We don't see Dean much, just about 8 to 10 hours, twice a week.

Any other question?

Q: Wang Lynn... A question from a Chinese Knowledge Seeker. Why those souls come to the Earth? Why have to experience sickness, ?? collections, or sufferings?

K- Oh, this is the arrogance of man. Souls are everywhere in the universe. It's not exclusivity of this planet. Why some souls appear on this planet, it's the same as how the Earth was created out of this Solar System. (2:26). Collection of incidents, accidents and some deliberation, that's all. Souls are not. The same as life is not exclusivity of this planet, as we know. Souls are not exclusivity of this planet.

If we've been told that a stone has a soul, have you seen how many stars and planets are in the universe? Where is their soul? Where their soul is? Just because we want to think Earth is the only one, ?? others don't have a soul. We can live in that ignorance, but the truth is different. How are you keeping Lin? Are you okay?

Q: Good. I feel much, much better. I'm on the way of awakening, I believe. I'm experiencing what...

K- Be careful you don't fall off the bed when you awaken.

Q: Oh, I'm floating on the bed. Sure, I will be in Linz, I believe. My soul wants to go there.

K- As all of you know, Lynn is one of the two heads of Keshe Foundation worldwide. She has done a lot, and she's suffered a lot in the past recently because of it. But we'll see the beauty of what is to come.

Any other question? (2:28).

Q: .. What is the definition of plasma? Is it an entity with a soul consciousness and intelligence, that can express and define itself? Is plasma technology a living being with a soul? Or creators like Suns?

K- Exactly as you said. If a man has a soul, so has the soul, has a soul, has an operator. It's not a football team with no captain, as I said yesterday. There is a structure to it. I always go back, I made man in the image of myself.

If the man has a soul, the STM has a soul of itself, it's got a set. It's got a central operator. Which that soul is connected to the soul of the Creator, or in its essence part of it. A star, is not a sun, is not created on his own, out of nowhere. He has received fields, that has led to his creation. Those fields have a pattern of work, and if all the stars rotate and do the same thing, so it must be a pattern set in the center with all of them. That's what we call, central forces of the Creation.

Any other question? (2:30).

Q: Ed ... We see many people coming to the units in Linz. And each one of them has a different experience, and some experience much, and some very little. You have said, it depends on the readiness of the person. How .. is this technology going to be used by all of humanity, if it takes them being ready for it?

K- Do you know, it's like a classroom. ... Even you're all in the same class, doesn't mean you all understand the same thing. Some of you are good in math, some of you are good in something else, some of you are good in art. Somewhere down the line, you'll end up to use the mathematics, because something you were taught, has come to a need, to calculate what you want from, what you've done, according to what ?? your wages you received, and what you want to spend (it on).

So, the knowledge is the same. It depends who and how you want to use it. (2:32). So, it's not a position, it's the readiness to accept, to understand. I said, even if you listen to one of the Intros, the end is not anymore, there will be, what we call, "day of judgment." The day of judgment is the day when you understand, and you realize the reason and the purpose of Creation. That's all. Why do we all say usually, the last word said, we call it the mother, or we call it God, save me? You know, we have always been aware of it, we ignored it. When it comes to the point, we confirm it. So this, our readiness to accept, to confirm what we actually are and what we do.

Any other question?

Q: Yesterday in Brazil, October 12, was National Day in commemoration of Mother Mary, Mother of Jesus Christ, holy be her name. How to separate the dominion of religion over the truth from this wonderful conception of Jesus? Thanks for the guidance.

K- It's all in the path of belief, what you accept who she is, or she was. (2:34). To some people she is no one, and to some people she is everything. It depends which side of the fence you sit.

It's very strange. In Spanish, French side, we see a lot in some sectors, belief in Fatima. In different shapes or forms. In the Islamic world, Fatima is the daughter of Mohammad, where the bloodline comes. And because of the way Spanish, French domination by the Islamic world for a few centuries, brought that mentality, still carries on into Christianity. Where in Christianity we believe in Mary and everything else. In Islam, the wife of, or the mother of Mohammad is not so much brought into ?? understand, than the daughter of Mohammad. That's where the separation between the sects of Islam, Shia and Sunni come in.

It's in essence, the soul of giving, the soul of Creation. How we want to respect that. The one who created, the one we believe it, or the one who created, the ones we follow to believe in, is a part of the essence of one or the other. Which means Mohammad and his children, or Mary and her child. It's the habit of the man, we have to have something to connect ourselves to, to be part of us.

This is where it comes, in essence. (2:36). You go back and look how she was created, how she was, not created, made (up) to be, and how she really was. When you look at this, don't look at it as a present time and position. Look at the time when it happened, what the position was, with the life of normal people. How did they live? How did they got married? Was there something called as marriage for those who were not believer in anything? Who was the father, and how was the father? It all comes into a play, the way they've written it, to create a mysticism. Or was it a fact of how it happened?

The reality is, a child was born to a woman, irrespective of physical condition, how he was born. The Soul of Christ was given to that soul, to that physicality. The soul created by the egg and the sperm of Mary, or the father of the child was not the Soul of Christ, as we call it, as the belief is. It's the time and the place chosen for that soul, for the manifestation of the soul of the Moses.

It's the same soul, it just plays the game. (2:38). Just because it wears different suits and different clothing, and one day is here and one day there, it's a different one. Are you a different person if you're in London today, in New York the next day, or in Beijing the day after? One in the suit, one in the summer clothing, and one in the winter clothing. This is what man hasn't understood.

The rest of it is play with the words in the books to make the importance of the priests. The soul of Moses in these three manifestations, in the Soul of Christ, was after the child was born, not the child was born as Christ. It's a big difference. It's been the same with

Mohammad, it's been the same in my time. We are not born to the soul. The soul is given to, to manifest itself.

Where the birth of child of Mitra is different. The soul was manifested for the physicality to be manifested into it. Once the man understands, you'll wipe out all these Mary, and (name) ??, and the others, and the others. Because the essence is, always has been, always will be when the time, the position of the physicality was set, it's ready to bring the beauty in it. One day man will understand this. (2:40).

If you go back into the teachings, how I've explained that a few times, you become aware of the body does not own the physicality, doesn't feel what it is. It's added to, to have both dimensions of physicality and the soul.

Any other question?

Q: <<< Speaks in Portuguese language>>>

What happen in the elevation of the soul? Why the person changes in this process? What really happens in this process when the soul is elevated?

K- It becomes more aware of. It's awareness. That's all it is. (2:42). When you are a higher you become aware of, you understand what happen below, what led to be in that position. You become aware of more.

Q: <<< Speaks in Portuguese language>>>

What means this consciousness you have when you have the elevation of the soul? And what happens really with the physicality in this process also?

K- What do you mean by that?

Q: So, by what I understand he wants to know more about what really is this consciousness of being elevated? What will be the reflection of this in the physicality and how the physicality will understand and be aware of that elevation? That's what I understood by his question.

K- Not much, it's just that the life, the soul goes through his process. It goes through it's understanding, it goes through its work. It's what happen to you when you go from class one to class two. You just mature to it, you understand more. (2:44). The alphabet doesn't change, the setting of the sentence, and the numerical numbers don't change. It's just you learn more how to create more words and calculate more complicated, because you become more knowledgeable of other things you can do with it. Does the alphabet change when you're in the first class, or when you graduate from the university? Has the numbers changed from 0 to 10 when you go to university? It's just we learn more how to play with, how to more, to understand more. If you put it together in one form it becomes chemistry, if you're interested to put in another form becomes physics, and if you put the same alphabet in another shape or form, it becomes another thing. But it's the same, and it's the same with the life of man and the physicality of the man and his soul.

K- Thank you very much Rafael, for ??.

Any other question?

K- How many workshops have you done this week. 20 hours?

R: Something like that, yeah, in the last two or three days. Yeah, it's been very, pretty intense. I'm always posting a new workshop every half a day or whatever. Okay, it's all in part of what we do.

K- Thank you very much.

Q: What is the role of mass media? Do we need to elevate the newsmakers, so that the new knowledge will become more reality?

K- That's our job and we are doing a good job of it. We got to stay under the radar for a few more weeks, then you'll understand. The mayhem will start.

Q: He went to say, it's here for many years, but too few know about it and apply it. Happily in China, Brazil and Iran, the knowledge is now widely spread, what could then be the next step?

K- The next step, we already are part of it, the next step is getting set. A lot of Knowledge Seekers in the background have helped to get it set. It's just matter of very short time. We are getting there. You know the Keshe Foundation doesn't do anything with the little bit of silence, but we just need that time.

You've got to realize, there's a huge, huge operation going in the background, as I said in the other teaching, to silent the Keshe Foundation for good. (2:48). We have seen it in black and white, we have seen it how they have started operating, that by Christmas Keshe Foundation will not be on the Internet. I'll come to it when the time comes.

But on the other hand, Keshe Foundation, has its own agenda, its own work. But there's extensive work by Vatican and through the Belgium government, and, what I call, their servants, to bring the Keshe Foundation off the Internet totally by Christmas. We'll come to it.

We have our own work, we know how to handle it, and we'll see. Vatican has ?? done in the past six months, the same with the Belgians. They tried to make it all look legal, and that they can do it for good, but they didn't realize the "children of Moses" have made much bigger movement than they made. We have a huge support within the Iranian community. The religions will keep the Keshe Foundation back on its track, not the governments, and that's when the governments come to an end, you will see. We never asked them, they volunteered, they put everything on the line to make sure it happens. Same with the Islamic world, the same is with them, it's just somehow they come together to make sure this time the change is there for the correct way. (2:50).

R: I know in the last Testimonials, public meeting for Testimonials that we had a few days ago, that we started getting into some of the Testimonials from Brazil, and there are

multitudes of Testimonials, literally hundreds of them to go through. And apparently there are between 12 and 1400, altogether, Testimonials from, almost all of them from different people. So the technology is being spread, if we consider that's just the people who volunteered to give that information, which is 1 out of 100, or 1000 or more, would probably volunteer to do that. It's not easy to get Testimonials all rounded up. They did a beautiful job of it. I was shocked and pleasantly surprised that that the knowledge was spreading so well there. A lot of it due to Rafael and his translation, and putting together documents, and so on as well.

K- The knowledge is spread in so many different ways, in different manners. But it's how the people see it. We have a culture of, what we call, television and news people. As I remember, somebody said years and years ago, wrote, I believe in it when it's on CNN. And strangely enough, I talked about it, that they say, especially when the Americans will believe it when they see it on CNN, (2:52). ?? Alan pur, did a communication said, "you're banned from CNN, Mr. Keshe, you'll never be seen on CNN." It was very interesting how people perceive it, to come, and how people who are in it know they put so much ban on it.

In CNN, in Fox it's a total ban on Keshe Foundation. And the people, some are Iranian and some are Knowledge Seekers in the influential positions, they all have informed us. They said, we want to talk about it, we want to bring it out, but now it's made impossible. It's one of the only scientific organizations who is banned to be reported. For what reason? Just because we didn't give the technology to the most pedophile nation of this planet?

Very soon we'll announce how these people into their banking system, we unravel the banking system of the pedophiles, we have broken into it, we'll come to it. Just one second. (2:54).

Sorry about that. As I said, we've broken into, not broken, but we've been informed, and we have knowledge, that how they work in the banking systems. We'll open that very soon. It goes back to the same as what we saw with the time of Alan Sterling, how they came up with the phrase of "free energy." Free energy was actually the name of the children. The life they took, it was free.

Now, the same process. We have become aware, we've been informed, we've been received. We'll talk about it. We'll bring it out to open very soon. Then we'll see how, we'll see their reaction. How many of you would like to work with the banks who actually are ?? in child trafficking? There are two banks, which operate fully on it. We'll unravel even the name, how it's been set up. It's very interesting.

But, it's the way. We don't look at it, we don't consider it, we just set up our own way, we do things our own way. We carry on. We have done 500 or 450 odd teachings, 10 years, and millions of people doing it. We just have to be humble we don't. We are here to change the base. (2:56). We are not here just to be a 15 minute show of fame and gone.

Any other question?

Q: Dean .. If the situation did arise where the, you know, the Internet is changed or whatever that fields strength changes, the Internet of the STM, you know, this structure that we have, that's unstoppable, that's unlimited, so it's already there.

K- That's what I told you, what did you feel at 7:30 am Central European Time. This is the short sightedness of these people. They thought they can do, and they thought they come up with a legal structure to do it, but actually they brought the process we wanted to do in 5 or 10 years, to immediate action. You will see it, but to give us time.

Q: I've always noticed Mr. Keshe, with the technology and have experienced it myself. We all do, there's a balance, there's a, you know, however you want to describe it, a field strength, M and gG, yin and yang, however you would like to describe it. There is, one interaction causes another interaction. If the interaction is with the right intention it always produces a beauty, and what you're doing is a beauty, so there's outside of that. As you said, there's no time. So, in this very moment the technology is there for everybody, it's within.

K- You've got to realize, (2:58) if we could not handle the move by the Vatican and the Belgian monarchy in the past few weeks, we would have come to you, and we would have cried out, copy things, take everything, make sure you keep things. We are so confident, that it will be handled in a way, that it will bring the breakthrough most of you've been waiting for.

This was the most stupid move they could make. I was shocked when I saw it. I was surprised when I saw it. And I thought, that's it, the end has come. They chose, not us. They chose the battle. Again by deception, again by typical way the oldest ... But this time, as I said, they haven't shot themselves in the foot, they've shot themselves in ?? (heart).

Q: As Knowledge Seekers, Mr. Keshe, we all look forward to this moment that yeah, interesting times, interesting times.

K- You will see it, It will become public. Keshe Foundation never ?? reveals with anything, but you'll see it.

Q: Technology is for everybody, the understanding is for each and every being, each and every soul present, and it's from Creation, and it's this beautiful gem of a planet, you know, this wonderful Creation, it's part of it. And we're part of that, so it can only ever be in full bloom in this moment. It can only be this.

The image, Mr. Keshe, you see, and it's still on the screen. I see Rick's left it there. Can I ask some questions about this structure? Is this...

K- I have no news about this one, (3:00). This is done by an artist.

Q: Yeah. Is it actually a, is it a crystal or is it a cake?

K- No, no. We've been waiting for Knowledge Seekers, artists to come up with a proper use. This is resin. Resin with Gans's. A new one has just been sent in. I don't know if I can share it, we just received it. We're going to, it has just been done, it's a very small unit, again, another concept by the artists, and artisans. It's very beautiful. As soon, I think in the next day or two, will be on the Keshe Foundation website. They explained their understanding what it is, and everything is made, and in the context of what it can be done, and what effect will have. We don't have a say, we don't make these things. It's made and sent to us.

Q: Do we know what the tool, the intention is for the tool, Mr. Keshe? Do you know?

K- For what?

Q: Do you know what the intention is set for this particular tool, this sculpture?

K- It's spreading the fields, it's the artist has done.

Q: An interesting shape that's for sure. It is liken this spiraling up that, the Flower of Life, and many, many different things that seem to be interacting with the technologies and things that have been present for quite some time, (3:02). and the knowledge that is within it. And the Gans structure, the soul of the Gans is in it. As you said.

Would it take many of these placed around, would these be another satellite, would be another condition?

K- What do you mean by that?

Q: So, if everything has a soul, then the soul of this, has the potential to do the same as any soul. It's unlimited. So it's a Creation. Was it born out of an intention? From where did it come? What's the origin?

K- I don't know, it's an artist, and we don't ask them. We sell them. We have offered a number of artists who work with this. We will run an exhibition in Keshe Foundation Linz Center for the artists, the artisans and their work in plasma. Maybe 50 or 100 works, maybe it will be the first plasma artwork gallery, and it will be shown in the Linz Center. We have the facilities and space to do it. We can even extend to other parts of the center, if we can ask for it.

Q: Mr. Keshe, that's a physical interaction we're seeing, this sculpture. So in the arts, there are many ways to express yourself in sight, sound, touch, feel, everything. So is that something that expands out, is that something to be part of in... ? (3:04).

K- Yes, but it's people how they bring. You know, we had two visitors yesterday, they lost their bag. They were so busy, what I call, monkeying around in the bus, or the tram, that they left their suitcase behind, or their bag behind, which they had things to show us. People come with different ideas and things, and our job is to promote the work, if it is from the work we do. We're not there to stop, we're there to allow it. We tried a couple of years ago to do, now is taking shape, more and more.

We are making the ground for a lot of people to be able to encourage different application of the work, and how it will effects us, how it will be. The food products, the clothing, we'll see very soon. I was told, new artworks coming in different, different things we've

never seen, and how it can be promoted through the work of the Keshe Foundation. It's not just a gel pack, it's not anymore just an Enhancement Unit. It covers everything right across.

R: .. Would this include things that aren't associated with Gans and Nano materials, or that kind of stuff like...?

K- No, no, no.

R: Like a volume of poetry, for example, doesn't qualify?

K- If it's a poetry, how can we sell a poetry? But if it is poetry about the Gans, we can put it up for others to enjoy it. You know, some things you cannot sell, but it's there. If you go to Linz Center, (3:06). You will see, some people noticed, some people don't noticed it, but I'll try to show you something and then I explain. I have to share. Some things we cannot, what you call, put out, but is there. It has no value to put out. But if you go to. Do you have any pictures of the Center, we were shown live this week? I'm just looking for it. But what is interesting, what the people have done in the center, you see a corner, a section where there is a store section and we have units, which they have their back open to walking path, or to the lift. But when you get into the lift, if you look behind you.

You know, you put a lot of things, phrases I use in talks, usually notice, the phrase is taken out, the organizers of the center, they have put these phrases on the back of the all the units. They are literally made banners with the phrases of what I've talked, and just been printed on, I think, on a plastic sign. It's the backing of the things. When you get into the lift going down, if you read, you see a lot of phrases I've used somewhere. It has no value, it's just there to remind you.

It's the same with the poetry. If it's about the plasma, about that work, yes. But don't expect to get paid for it. (3:08). If there's books which refers to the work, yes. If you have those scientific papers, we're there to put it out, to become, to be published, yes.

K- ... They are there to, what you call it, to be sold. This is the very first sculpture we've done. We received another one in the past few minutes, it'll be there. Most of the paintings, whatever we have is already sold. There are numbers of Knowledge Seekers who buy the artwork's, straightway. This one is about 1.500 Euros.

Q: .. So, these artworks. In many of the museums and things you see these wonderful masterpieces of artwork, that are done by these artists that are portrayed in a certain manner for humanity and people come to view them, and they obviously they look upon it with the physical eyes. And because of the admiration and the field strength, they give it a lot of energy. Would this be the same for these in the follow? Will these be creations that will become more, as more souls interact with them? (3:10).

K- I think they will be the only true pictures. Actually, the old pictures if you look at it, they used to use natural things, paints, or plants. They are the same. But the very recent ones, they are all chemically made paint.

But, you will really interact with these paintings, with these artworks. Do not be surprised if you see, for example, this sculpture in your room, changes color. You say, "oh, I bought it and it was cream and whitish, now it's blue and yellow, or whatever. These are that really reflects your emotion and what's going on in the house. Then put it this way, you come home and see it is orange, you say, "oh, there's a problem." The wife is not happy today it has turned blue. You come home with a reddish color, oh this is a good day, she's going to love me. These are sculptures will become like this, they are live interactions.

Just look at the paintings, those of you who bought it. Then ?? to see the mood and the feeling, if you don't like the mother in law, puts her in the room she doesn't know what the painting is, but you come and you know, oh, red, there is a problem cooking here. You start learning how your pictures talks to you.

They are interactive artwork, but through the emotion, very rare. But now it's a cycle, a lot of people will do, will try to do it.

Q: Do you think Mr. Keshe, some people will pick up on the aura, or the field strength of it, and a sense and feel the fields of it, in another way?

K- What, a lot of people who will try this, will do. (3:12).

R: Remember the "mood ring" back a few decades ago, change color on your finger according to, supposedly according to your mood. And that was a big fad for a while and a lot of, probably anybody who was older would recognize that phrase, the mood ring. Perhaps this will become like that, this kind of sculpture and artwork.

K- Nowadays, you've seen ladies wear this nail polishes, on their nails. It sensor different heat, shows if they're cold, or hot, or whatever. Now, you know what's coming. Nowadays, there's a lot of different ...

R: That's a great product for the beauty salons. Or you already have that one in the background, Mr. Keshe?

K- You can buy it on the Internet.

R: No, I mean one with Gans's on them, painted with Gans, that it changes color to from.

K- No. Oh, it changes the mood, that's definitely mood changer. Then you can imagine what it does, what fields you absorb.

Q: We already have this Mr. Keshe, within human beings, you see them blush with colors and change colors. And they are all full of Gans.

R: You could put one finger with the Gans fingernail and the next one with the mood fingernail, and the next with Gans and see if they influence each other. The Gans would

change the color of the mood ring or the mood fingernails. That would be interesting experiment actually.

K- What I like about this sculpture of the finger moods, as you call it, with the fingers, (2:14). is which one is giving, or which one is taking compared to the environment. One finger will be boiling, and one finger is frozen. Because depends how they give compared to where they are, and what they receive.

Anyway, we're going through a change, a scientific changes, and there are lot of other changes to come.

Q: So, this has been going on within the flight, Mr. Keshe, and within the rooms and outside of the room. I've been present with that. So, I've had a cold recently and I felt some coldness, so, I was dressed for that. Then there was, I noticed yesterday, there was someone present, one of the Canadian people, a lady, and she had, she was openly just skin showing and a very thin top, so she wasn't feeling the cold. And she just been in the flight system. So, everybody's emotionally receiving or responding differently.

K- Let me explain it. Did you see the guy, her partner? He was cold, he had his hoodie on.

Q: Yeah, precisely. Yeah.

R: First day he was shaking actually, he was so, trembling like.

K- It is, well, it's not the first time. We've seen many people who go. They interact with their soul. It's actually, I can explain exactly what happens. But they interact with their Soul and their physicality. We've seen people who come and ask for a jumper, we've given jumpers and, god knows what, to people to cover themselves in occasions. We had two sisters says, can you ask my sister to give me a jumper, and it was summertime.

It's consciousness, awareness through the soul. (3:16). These systems, we watch a lot of psychological pattern in it, which we cannot explain at the time. But part of the work is watching psychologically what happens.

We've seen couples who come in, and one couple goes through crazy phases, and the other couple stands there and nothing, nothing happens. And we always find this with the men. Because nothing, what you call it. Then we see the change of. "oh, you went through the trip, I didn't go." What have I done wrong. Then we got like the resentment and the rest of it. We've seen this.

But we look at the character before it goes he goes in. And how ... If you observe what I observe in this flight room, conditions we create, you just go crazy. How well we know the human, how well the systems are set.

Because even the people who made the system, they don't know what I do with it. This week we brought 7 people in the room, some connected to each other, some had no connection with each other. We did test with three strangers, with they had no

connection, to see how they interact, if there is any soul interaction, if there's any field interaction. We put the people in, in the middle of the flying and then we take them out, in the middle of flying. To see how they react, what did they see. They all have an effect on each other. They all have a very direct effect on each other and how they do it.

Q: That's within the system, Mr. Keshe. (3:18). In the proximity of where the systems are based. How are they expanding out? Are they effecting other souls and other positions much further right, that they're unaware of?

K- Yes. There is a part in the system, that we can centralize the fields.

Something very interesting happened. I explained that to the Knowledge Seekers, the Canadians yesterday. We have different things outside, we have field detectors and everything else. Inside, we monitor a lot of things.

The Canadian lady is one of the few we seen, which could tip the scale. I put her in the front seat, I put her in the back seat, I put her in different two systems. I put her on the lap of her partner. She tunes so fast into the fields of the system, that we usually see slight changes when the soul leaves. We see literally weight reduction on our scales. This lady was so fast, she can change kilos. I told her when she was in the system. I've never seen so fast. She just switches and we see the weight change. She goes into the relief of the STP. There is a weight bracket which when the Soul leaves. (3:20).

There is a weight bracket when the STP leaves. When I see, quick looks, when the STP is huge, it's the time when the body's going through the transformation, to go to transmutation. We intervened twice with this, because I always keep an eye on this changes of the fields, on how things go.

The lady yesterday, doesn't matter where I put her. She could so quickly change into the system, that she goes to, what we call, weightlessness in the physical body. She could feel things, but the partner didn't have that ability. I said to her, I've never seen someone having so fast, letting the STP go.

Then she told me something just before they leave, and it was a checkmark, exactly. Detachment. She said what she's done in her real life, then it became very obvious why she does this, how easily she can let go. Twice, I was waiting for her just to move across, and I had to block off all the systems, that she had no chances to move anywhere. When I told them in the room, I said, I never seen anyone so fast.

I can send her to the Moon within seconds. And she is so fresh, she is so bubbly, she has such beautiful face. You felt it when you interviewed her, when you see her. (3:22). But the system was going crazy the way. She could stop and start straightaway. I could see her, she jumps. She comes to the dimension of physicality, and she leaves the STP and she brings it back in again, and she goes to the Soul, and she comes back. It's so natural with her fluctuation in the control.

I've tried to see, put her in the middle to monitor, I asked them to stand there for 15 minutes, don't do anything. I wanted to know if she can do that from outside, inside. To touch, to change the environment. People don't know what we do, but there is a reason for when we move people in different positions, in different things, for us to learn.

When I asked Knowledge Seekers with Rick yesterday, to send things and they didn't receive it, they said, no we didn't get anything. Because I switched the systems on, there was no way any of the two units could receive. Then we tried to see if one of the systems can receive. It's just testing, that's why you are there as Knowledge Seekers for us to test, pilot test.

This woman, was amazing how she could control, to let the Soul go. We could see the Soul weight, we could see the STP weight, and she could get it back. She could go from physicality to the Soul, and back to the STP. And she doesn't move in the system. She stands still. (3:24).

Any other question?

Q: Mehranez .. I am full of gratitude for you and all you do. First of all, I have a question about, I heard about IT intelligence, artificial brains they're creating. Are we going to see the human beings which are created?

K- Once you create a system, which is interactive fields flow, you call it, a current, electricity, or whatever, there is a central dimension of fields. And in near future, in the coming time, scientists will decide to abuse, or to use this. What will lead to, is how the man decides the future will be.

Would we create a soul, which has an artificial soul, I mean, not artificial, but soul created out of the interactions of the fields which man has decided? What would the interaction lead to Creation of?

You cannot make super intelligent systems, artificial if you don't consider the soul. Once they learn, man learns this, we will see different kinds of artificial intelligence. (3:26). That has been on the card from the day we built the first system. I always looked at if the Chip manufacturers could understand the flow of what it creates, a different dimension flow, the superconductors and the memory Chips, they are so small. But they haven't come to realize that yet.

There was a small hope that this might be realized when the cubicle memory banks were getting pushed through with the "Blu-rays, and somewhere they got lost.

Q; Would they some way ask, who is my Creator? Where's my Creator?

K- Mr. Chip. Maybe. But would they be able to create a condition of flexibility muscles, as we do as humans. If we use natural materials, if you use. There are certain ways you can do it, which we don't want to open up. But there are certain ways you can actually

create that condition. We have enough trouble as it is with the physical system we made. How to teach that is another thing.

Q: Thank you. I dream last night I was in Linz. And it was surprising, because I was going to go to Iran. (3:28). But maybe not now, because of things. And my husband was with me because, he makes his pathway. So, I hope one day I be there with him also to show.

The other question or comment, maybe. I always thought that this destiny and way of life of Virgin Mary, bless her name, and Fatima, the daughter of Prophet, bless her name, were similar, very similar the way they raised up in a special way. The way they suffered at the end, the same way. Because they knew they had martyrs, both of them. And before when I was believing that in reincarnation, as Buddhists do, I thought it's kind of reincarnation. But now that you say reincarnation in that sense, exactly, it's not valid. It can be said, they had the same soul going to their body. There is so similarity.

K- I know the truth and I prefer not to discuss the truth. Because it will offend a lot of religious people. We're having enough problem with these turbans, and their beards and the funny hats in Vatican and everywhere else. We muddled them enough.

What is interesting, we hear, (3:30). since we played with the elevation of the Soul of the Pope, that a lot of things is about change in Vatican. You will see very soon how Vatican will respond with the changes. Just watch the space, as we say.

Q: Yeah, we hear things during these last years on Internet, about all that. The things he did and stuff like that. So I hope everything finishes with peace for everybody.

K- Oh, the end is always peace, because there's no place for war. Even wars of today are very, what you call it, nicely fought.

I will not be surprised, if you will hear what was happening even in Ukraine, how it was arranged, how it was set up. How they took the opportunity to. If you look at. The only winner in the war in Ukraine, is United States. They brought European nations under full control of America, from the fuel, from the food, and now from everything else, which Europe (?? needs).

We are back into the Second World War. You know, they used to ship everything to Europe. Now the gas is from all America, the grains, because there's a shortage is all coming from America. All the financing and the banking is from America, because Europeans don't have the finances to do it. So, we're back into, what I call, cold zone situation. But, all to the benefit of United States, all to benefit of Rothschild's. (3:32). Even the old weapons which got stuck, it couldn't be used in Afghanistan, and Pakistan, and Iraq, now it's all getting as fast as possible shipped to Ukraine, and then they pay the invoice later on.

Ukraine was one of the biggest threats to the American grain supply. Now they have taken it out. Russian pipeline was one of the biggest threat to the American domination of the gas supply. They blow it out. It's a one way traffic benefit. And all the old stock of weapons are already sold out, shipped into Ukraine. I'm sure a lot of you have heard about the drones which the Americans sold and they're actually firing back at the Ukrainians, actually to. Because the Americans sold the types that didn't work, to the Ukrainians. It doesn't matter Ukraine. Russians the same, as long as we get paid for it. Anyway, let's see what the world brings.

Thank you very much for this week, this was a week job. Thank you very much Rick, for all your work in the background. Hopefully we meet each other next Thursday, and see what the future brings for us.

Next Thursday teaching could be just for a short time, for an hour or two. We'll let you know if that happens. It'll be short, short for a couple of hours maximum, if we expect to see what's happened to be happening. Thank you very much Rick, the next week.
